

Arne Noori

Full-stack / ML engineer shipping AI products from 0 → production

✉ arne@arne.ai ☎ +1 (949) 702-9072 🔗 arne.ai 🌐 arnenoori 📄 arnenoori 📍 Irvine, CA (US Citizen)

EDUCATION

California Polytechnic State University, San Luis Obispo,

2021 – 2024

B.S. in Computer Science, Artificial Intelligence and Machine Learning Concentration

Relevant Coursework: Applied Linear Models, Knowledge-Based Systems, Systems Programming, OS, Algorithms, Data Structures

TECHNICAL SKILLS

Languages: TypeScript · JavaScript · Python (FastAPI, PyTorch, Pandas, NumPy) · SQL (PostgreSQL, MySQL) · HTML/CSS · Java · C/C++

Frameworks & Libraries: Node.js · React · Next.js · React Native · Express · Tailwind · TensorFlow · tRPC · Expo · Supabase · Drizzle ORM

Tools & Platforms: AWS · Vercel · Docker · Kubernetes · Git · WordPress · LLM APIs · Sentry · LangChain · Claude Code · Cursor · MCP

Expertise: ML & Data Pipelines · RESTful APIs · Mobile (iOS/Android) · UI/UX Design (Figma, Photoshop) · LLM & Prompt Engineering

Certifications: Google UI/UX Design · Meta Front-End Developer · Imperial Math for ML · UMich AI for Autonomous Vehicles

PROFESSIONAL EXPERIENCE

Golf Daddy, *Founding Machine Learning Engineer*

08/2025 | Irvine

Lyra — YC X25, *Founding Engineer*

03/2025 – 08/2025 | San Francisco

- Built **real-time AI sales agent** using WebRTC, Deepgram STT, and OpenAI that analyzes live conversations and surfaces relevant content with **sub-2s latency**, driving **\$300K ARR** within 8 weeks of launch
- Shipped **AI-powered meeting platform** with React Flow canvas, LiveKit video rooms, and **automated meeting intelligence** (transcription, sentiment analysis, content recommendations). Built using Next.js 15, TypeScript, and **event-driven architecture**

iSharkz — **Digital Marketing Technology**, *Software Engineer*

06/2022 – 03/2025 | Irvine

- Designed and shipped **CRM platform** serving **300+ automotive clients** using PostgreSQL, React, and Node.js, integrating real-time GMB/Yext API syncs to centralize operations and eliminate manual data reconciliation
- Engineered **ML-powered lead generation pipeline** using Python, scraping **50K+ business records** via DCA, BAR, and Google Places APIs, implementing scoring algorithms to rank prospects by market opportunity and **automate lead qualification**
- Automated WordPress infrastructure management across entire client portfolio (**2M+ monthly visitors**), implementing Cloudflare R2 backups and achieving **99.9% uptime**

Rythm.fm — **Social Music Streaming Platform**, *Contract Developer*

08/2024 – 10/2024 | Remote

- Built **13 internal tools** (Retool + REST APIs) including playlist editor, radio station manager, and **real-time analytics dashboard** serving editorial and engineering teams across **50M+ song catalog**

SELECTED PROJECTS

Wafflr — **Video-based Social App**, *Founder University Cohort 10* 🔗

12/2024 – Present

- Founded and launched a cross-platform social app (Expo, React Native, Next.js, TypeScript, Clerk Auth, Supabase, Vercel) that enables **2-min weekly videos** in groups driving **80%+ weekly retention**
- Led full **0→1** product dev—user research, rapid prototyping, Expo mobile + Next.js web builds, **CI/CD pipelines** and shipping weekly updates by iterating off real-user feedback
- Architected scalable cloud infrastructure handling video storage, push notifications, and real-time sync for **500+ active users**

MUN Health — **AI healthcare companion** 🔗

11/2024 – 03/2025

- Developed a **HIPAA-compliant** platform (React, Next.js, Tailwind CSS, TypeScript, OpenAI API, Hume AI, PostgreSQL, Drizzle ORM, Vercel) delivering personalized emotional support for chronic-illness management
- Designed encrypted, privacy-first UX and data flows to safeguard sensitive health data during **clinical-trial prep**

Reinforcement Learning Poker Bot 🔗

03/2024 – 06/2024

- Designed and trained a poker agent using Python, PyTorch, OpenAI, Reinforcement Learning, Computer Vision, achieving **win-rates above baseline bots** in simulated No-Limit Hold'em
- Implemented **deep Q-learning + Monte Carlo Tree Search** for real-time decision-making under uncertainty

TOS Buddy — **Terms of Service Analyzer** 🔗

01/2024 – 06/2024

- Created an **LLM-powered** browser extension (Next.js, Tailwind CSS, Supabase, Chrome Extension API, Anthropic API, Docker) and web app that parses complex Terms of Service & Privacy Policies, surfacing key risks and obligations in plain English for **any website**
