I am an AI researcher, consultant, and author. As the founder of Renze Consulting, I've trained over 600,000 software developers and IT professionals in artificial intelligence, data science, and machine learning. My clients range from Fortune 500 companies to small tech startups around the globe.

I'm the president of Serenze Global, a 501(c)(3) non-profit organization dedicated to improving access to technology education for under-represented individuals. I'm also a Microsoft MVP in AI, a Microsoft Regional Director, an ASPInsider, an author for Pluralsight, and the founder of the Las Vegas AI Meetup.
