EDUCATION

Stanford University	09.2015 - 06.2018
Master of Science, Computer Science	GPA: AI Track 4.0 /4.0 — Overall 3.81/4.0
Tsinghua University	09.2011 - 06.2015
Bachelor of Science, Civil Engineering	GPA: 90.6 /100 Top 8/120

WORK EXPERIENCE

Machine Learning Engineer - Apple Inc.	07.2018 - Present
<i>Siri Proactive Intelligence Team - Promoted to ICT3 in 03.2019</i>	<i>Cupertino, CA</i>
- Contributed in development of Personalization engine for iOS, with a new pipeline of knowledge base construction - Initiated and built an internal web dashboard with Spark + MongoDB backend pipeline - Trained and deployed on-device models running on millions of devices	
Teaching Assistant - Stanford University	09.2017 - 06.2018
<i>CS107 Computer Systems</i>	<i>Palo Alto, CA</i>
Held weekly lab sessions and office-hours; provided code reviews for students' submissions	
Machine Learning Intern	07.2017 - 09.2017
<i>Fujitsu Laboratories of America - Digital Life Lab</i>	<i>Sunnyvale, CA</i>
Prototyped an automatic data analysis pipeline for business analysts	
Software Developer Intern	06.2016 - 09.2016
<i>Arup Advanced Technology + Research</i>	<i>San Francisco, CA</i>
Built a web platform with <i>Julia</i> as computation engine, decreased computation latency by more than 10 times	

PUBLICATION

A system for post-earthquake investigation of building damage based on smart phones	2016
<i>Xu Z, Lu XZ, Deng L. International Conference on Computing in Civil and Building Engineering</i>	<i>Japan</i>
- Independently developed its integrated platform with <i>Android</i> app and web app for data collection and management - Obtained two copyright certificates and two software certificates; contributed the code base to a startup in Beijing	

PROJECTS

🔗 Github: github.com/dengl11

Chinese Chess AI , CS221 Artificial Intelligence, 27 Github Stars, 11 Forks	09.2016 - 12.2016
Developed an AI agent for the Chinese chess game using MinMax and Monto Carlo Tree Search algorithms	
SQUAD Question Answering , CS224N Natural Language Processing	03.2018 - 06.2018
Implemented a question answering model with Bi-directional neural network and Self-Attention in Tensorflow	
Chinese Character Font Reconstruction , Machine Learning, Graded A+	06.2016 - 12.2016
Built a convolutional neural network model for Chinese font learning in Tensorflow	

AWARDS

Excellent Undergraduate Exchange Student Scholarship	China State Scholarship Council	08.2013
Scholarship for Outstanding Academic Work	Tsinghua University	10.2014

TECHINICAL SKILLS

Programming Languages:	Python, Go, C/C++, Java, Objective C, Scala, Javascript/Typescript, HTML/CSS
Software:	React, Angular, MongoDB, Spark, ElasticSearch, scikit-learn, Tensorflow
