

CORINNE CLINCH

AWARD-WINNING SOCIAL ENTREPRENEUR
SEEKING A CONSULTING OR PM ROLE

EDUCATION

Master's Degree in Biomedical Engineering

2014 | Carnegie Mellon University | 3.6/4.0

Bachelor's Degree in Civil and Environmental Engineering and Biomedical Engineering

2014 | Carnegie Mellon University | 3.9/4.0

ConsenSys Academy Blockchain Developer Program

2019 | Online course in progress

WORK EXPERIENCE

Director of Strategy | Glyph ID

2018 | San Juan, PR

- Worked directly with the CEO, effectively as an internal consultant, developing a tool for cryptocurrency and other financial service companies
- Researched and executed new strategies as needed, in areas such as branding, public relations, fundraising, and technical communication
- Created and managed internal processes

CEO and Co-Founder | Rorus Inc. and Rorus Asia LLP

2013 - 2017 | Pittsburgh, PA and New Delhi, India

- Raised \$1M+ in startup seed capital, grants, and awards
- Invented and patented water filter designs (US20160158704 A1)
- Created and managed international business relationships and employees
- Built and operated an in-house water quality research lab with results validated by independent labs
- Conducted cross-cultural usability testing in India, Nepal, and Ghana
- Redesigned, manufactured, exported, and sold 4,000 water filters in India

Computational Modeling MIDAS Fellow | University of Pittsburgh

Summer 2014 | Pittsburgh, PA

- Challenged modern computational models of dengue fever epidemic prediction
- Presented new model from 12 years of data from 273 Asian provinces

Water Filtration Researcher | National Science Foundation Grant

Summer 2013 | Limpopo, South Africa

- Planned and conducted daily biological lab experiments to test novel nanotechnology purification methods
- Evaluated user interactions with ceramic water filters and hygiene education

Sustainability Software Developer | TechBridgeWorld iSTEP

Winter - Summer 2012 | Pittsburgh, PA and Berekuso, Ghana

- Worked overseas as the technical lead with 3 Ghanaian computer scientists
- Created a sensor network and database for water and waste management at Ashesi University College
- Conducted usability assessments with end users and implemented findings

Teaching Assistant | Carnegie Mellon School of Computer Science

Spring 2011 and 2013 | Pittsburgh, PA

- Created and executed lesson plans for programming in Python 20 hours per week for spring 2011 and spring 2013

UAV Engineering Intern | NASA Langley Research Center

Fall 2009 - Spring 2010 | Hampton, VA

- Created mobile sensor platforms to quantify GPS receiver accuracy and latency to predict safety of drone testing

AWARDS

- Forbes 30 Under 30, 2017
- SXSW 1st Place Startup Pitch, 2016
- SOCAP Social Entrepreneur Scholar, 2016
- Infosys \$10,000 Inventor Award, 2015
- Healthcare Industry Scholarship, 2014
- Gottesman Honorary Scholarship, 2012-14
- CIT Engineering Dean's List, 2010-2014

RELEVANT COURSEWORK

- Project Management
- Inventive problem solving in BME
- Epidemiology and public health history
- Engineering statistics and quality control
- Advanced physiology
- Technology field research in developing communities
- Computational bio-modeling
- Materials selection
- Engineering for surgery
- Social factors and health

TECHNICAL SKILLS

- 7 programming languages including Python, Javascript, and PHP
- Computational analysis with Minitab, MATLAB, and Mathematica
- AutoCAD on Autodesk and SolidWorks
- Electronic prototyping including designing and building hardware and programming for wireless communications and remote sensing
- Biological wet lab design, management, and operation
- Basic machining and fabrication with wood, metal, and mechatronics
- Microsoft Office and Microsoft Project
- Version Control in MatrixOne

SOFT SKILLS

- Negotiation and conflict resolution
- Fundraising and reporting (more than \$1M)
- Remote work and team management
- Academic and professional public speaking, including audiences of more than 1,000 people
- Press relations
- Hiring strategy and execution
- Event planning

VOLUNTEER EXPERIENCE

- Entrepreneurship advising and education
- Hot Metal Bridge homeless outreach
- Boy Scouts of America medical and survival skills teacher
