PROFESSIONAL SUMMARY

Full Stack Software Engineer with **3+ years** of professional experience building scalable applications using **React.js, Next.js, TypeScript, and Nest.js**. Currently delivering high-performance enterprise solutions at ANZ Bank, with proven success improving application performance by 40% and achieving 85%+ test coverage. Strong expertise spanning frontend UI development with React/TypeScript and backend API development with Nest.js and **Express.js**. Experienced in consuming and building RESTful APIs, implementing responsive components, and working with microservices architecture. Passionate about creating **accessible, user-centered** applications with **clean, maintainable** code.

TECHNICAL SKILLS

- Frontend Expertise:
 - Core: React.js, Next.js, TypeScript, JavaScript (ES6+) ,
 - Micro-Frontend Architecture (Module Federation)
 - State Management: Redux, Zustand
 - Styling: Tailwind CSS, CSS/SCSS, CSS-in-JS
 - Testing: Jest, Vitest, React Testing Library
 - API Integration: REST APIs, GraphQL
- Additional Skills:
 - Backend: Node.js, Nest.js, Java (Spring Boot)
 - Databases: SQL, NoSQL TYPE ORM, PRISMA
 - Tools: Git/GitLab, Jira, Figma, Docker, Vercel
 - Mobile: Flutter (Basic), React Native (Basic)

PROFESSIONAL EXPERIENCE

- **Software Engineer (Contract) | ANZ Bank | Melbourne, VIC | July 2023 - Present**
 - via Block Majority Pty Ltd
 - Rewrote entire frontend application from Svelte to React with Redux and TypeScript, enhancing performance by 40% and improving code maintainability
 - Currently leading frontend development of blockchain-based superannuation platform using Next.js, React, and TypeScript
 - Built responsive, accessible UI components using TypeScript and Tailwind CSS, ensuring cross-browser compatibility and WCAG compliance
 - Established comprehensive frontend testing with Vitest, achieving 85%+ test coverage across critical components
 - Integrated RESTful and GraphQL APIs between React frontends and backend microservices, handling complex data flows
 - Collaborated with backend team to develop REST API endpoints with Nest.js, focusing on CRUD operations for transaction data
 - Participated in code reviews and maintained high code quality standards across the frontend codebase
- **Junior Software Engineer | iGreenData Pty Ltd | Melbourne, VIC | April 2023 - July 2023**
 - Designed and implemented asset tokenization platform using Next.js, React, TypeScript, and Tailwind CSS
 - Consumed RESTful and GraphQL APIs to display real-time data and handle user interactions
 - Ensured cross-browser compatibility through comprehensive testing and optimization across Chrome, Firefox, and Safari
 - Translated UI/UX designs into responsive, pixel-perfect components that worked seamlessly across devices

- **Software Engineer (Internship) | AML Cloud | Melbourne, VIC | January 2023 - April 2023**
 - Contributed to client projects within Agile/Scrum frameworks, participating in daily standups and sprint planning
 - Built responsive UI components for transaction monitoring dashboards using React and Flutter
 - Developed cross-platform mobile features using Flutter for AML compliance monitoring applications
- **Software Engineer (Internship) | Pinterest Pty Ltd | Colombo, Sri Lanka | February 2017 - August 2017**
 - Developed backend systems for inventory control using Java Spring Boot
 - Implemented REST API endpoints and integrated with frontend applications
 - Built CRUD operations and data validation features for inventory tracking system

EDUCATION

- Bachelor of Information Technology | La Trobe University | Bundoora, VIC | December 2022

CERTIFICATIONS

- BTA Certified Blockchain Developer (June 2023 - June 2025)
- BTA Certified Blockchain Solution Architect (May 2023 - May 2025)
- Fireblocks Fundamentals for Partners (June 2023)

KEY ACHIEVEMENTS

- Improved application performance by 40% through strategic React rewrite
- Achieved 85%+ test coverage using modern testing frameworks
- Successfully integrated complex REST and GraphQL APIs in production applications
- Led frontend development for enterprise-level financial services platform
