PROFESSIONAL OVERVIEW

Results-driven Principal Solutions Architect with 18+ years of expertise in enterprise infrastructure planning, cloud architecture, and hybrid cloud migrations. Proven track record in designing resilient AWS multi-AZ architectures, managing VMware, Linux, Unix, and Windows server environments, and leading cost-efficient cloud migrations. AWS Certified Solutions Architect (2023-2026) with deep expertise in Terraform, CloudFormation, Puppet, Python, and PowerShell. Adept at collaborating with senior leadership to align technology solutions with business objectives.

WORK EXPERIENCE

Infrastructure Architect & Associate Managing Director

CIBC Bank USA, Chicago IL | 2023 - Present

- Designed hybrid cloud solutions integrating Dell VxRail, VMware, and Azure AVS for banking applications.
- Led migration strategy for 30+ critical applications, optimizing infrastructure for scalability and performance.
- Developed disaster recovery solutions with SRM, CommVault, and Rubrik.
- Provided technical leadership for infrastructure teams, ensuring compliance with security best practices.

Principal Architect & Account Executive (contract)

CLG Development, Chicago IL | 2015- 2023

- Led AWS & Azure migrations, including hybrid cloud designs and rehosting/lift-and-shift strategies.
- Architected and deployed scalable cloud solutions using EC2, RDS, S3, Lambda, Kubernetes, and API Gateways.
- Automated infrastructure deployments using Terraform and CloudFormation for enterprise clients.
- Designed cost-optimized cloud architectures, reducing operational expenses while enhancing resilience and performance.
- Managed multi-million-dollar client accounts, increasing revenue by 300% through strategic IT solutions.

Principal Cloud Solutions Architect

Insight Enterprises, Tempe AZ | 2021- 2022

- Designed and executed a 3-month AWS migration plan, moving 150TB of legacy data using AWS Snowball Edge, S3, and DMS.
- Implemented AWS security guardrails and IAM policies for multi-account cloud governance.
- Architected multi-cloud governance strategies, integrating Azure Arc for hybrid management and AWS control frameworks.

EDUCATION

B.S. Chemical Engineering

University of Illinois at U-C
Urbana-Champaign, IL

B.S. Chemistry

University of Illinois at U-C
Urbana-Champaign, IL

CORE COMPETENCIES

- Enterprise & Cloud Architecture (AWS, Azure, VMware)
- Hybrid Cloud Migrations & Strategy
- Infrastructure as Code (Terraform, CloudFormation)
- High Availability & Disaster Recovery
- Linux, Unix, & Windows Server Engineering
- DevOps, CI/CD, & Automation
- Security & Compliance (AWS Guardrails, IAM, SCPs)
- Cost Optimization & Performance Tuning

TECHNICAL SKILLS

- Cloud: AWS (EC2, RDS, S3, Lambda, AVS, Snowball, VPC), Azure (VMs, VNETs, Blob Storage, Arc, AVS)
- Automation: Terraform, CloudFormation, Puppet, Chef, Python, PowerShell, Bash
- Infrastructure: VMware (vSphere, VxRail, SRM), Linux (RHEL, Ubuntu, CentOS), Unix, and Windows.

WORK EXPERIENCE (CONTD)

Senior Solutions Architect (Subcontract)

United Airlines, Chicago IL | 2019- 2020

- Spearheaded Azure-to-AWS migration efforts to align with corporate cloud strategy, ensuring seamless integration and optimized performance.
- Designed high-availability solutions using Kubernetes and AWS Lambda, built ELK (Elasticsearch, Logstash, Kibana) clusters for log aggregation and analytics, architected and expanded Hadoop big data clusters on VMware for large-scale data processing, and deployed Kafka clusters to enable real-time data streaming and message processing.
- Led hybrid cloud solution architecture initiatives integrating AWS, VMware, and Azure, ensuring scalability and resilience.

Infrastructure Architect & DevOps Engineer (Subcontract)

Motorola Solutions, Chicago IL | 2018- 2019

- Led eCommerce platform migration to AWS and Oracle Cloud, ensuring seamless integration and minimal downtime.
- Developed CI/CD pipelines and automated infrastructure deployments with Terraform and CloudFormation.
- Optimized microservices performance with Dynatrace, improving application observability and scaling.

Lead Infrastructure Operations Engineer/DevOps

Law Bulletin Media, Chicago IL | 2013- 2015

- Designed AWS multi-AZ environments for critical applications and managed VMware, Linux, and Solaris environments.

Lead Linux Unix Infrastructure Engineer

IBM Global Services, Chicago IL | 2008- 2013

- Managed 1,200+ servers across Unix/Linux platforms.
- Led high-availability solutions and disaster recovery planning.

Linux Engineer, Trade Desk Support (contract)

New York Stock Exchange (NYSE), Chicago IL | 2006- 2008

- Managed 1,200+ servers across Unix/Linux platforms.
- Led high-availability solutions and disaster recovery planning

TECHNICAL SKILLS (CONTD)

- Security & Compliance: IAM, AWS Organizations, SCPs, GuardDuty, VPC Flow Logs
- Networking: Direct Connect, VPN, Load Balancers, Firewalls, API Gateways

PROFESSIONAL CERTIFICATIONS

AWS Solutions Architect Associate SAA-C03

Amazon Web Services
2023-2026

ITSM – ITIL v3 Certified Global Knowledge Network
