SUMMARY

I am currently in my third year at Singapore Management University, pursuing a Bachelor of Science in Information Systems, with a specialisation in Product Development. Alongside, I am undertaking a second major in Computing Studies, focusing on the Artificial Intelligence Track. This stage of my academic journey has allowed me to deepen my understanding of cutting-edge technologies and refine my skills in developing innovative solutions.

I am seeking an internship opportunity from 12 June to 17 August 2026, with the flexibility to continue part-time from August to December 2026. I am eager to apply my skills and contribute meaningfully to impactful projects.

WORK EXPERIENCE

Cloud Solutions Architect, UOB KayHian **Apr 2025 - Dec 2025**

- Led the end-to-end design, development, and deployment of a cloud-native intranet portal, delivering a scalable, reliable, and fully integrated solution aligned with the company's internal systems.
- Collaborated with cross-functional teams to gather requirements and understand CI/CD and build processes, enabling efficient deployment workflows.
- Worked closely with stakeholders for continuous communication, scheduling calls to sync on technical processes and deliverables.
- Supported the cloud migration strategy by integrating modern DevOps practices, enhancing application scalability and maintainability.

Frontend Software Engineer, School On Cloud Asia **May 2024 - Aug 2024**

- Developed and optimised reusable, responsive components for the company's front-facing website using modern web technologies.
- Integrated data seamlessly from the Content Management System (CMS) 'Contentful' to deliver dynamic and user-friendly interfaces.
- Spearheaded a vanity domain application project, collaborating with cross-functional teams to streamline domain setup and improve user experience

Security Operations Specialist, Centre for Strategic Infocomm Technologies (CSIT) **Oct 2020 - Mar 2021**

- Developed a Python script to automate the identification of Snort rules within IT security reports, significantly improving the efficiency and accuracy of threat analysis.
- Designed, implemented, and maintained a custom-built Intrusion Detection System (IDS) to test and enhance monitoring and protection against potential security threats, ensuring a deeper understanding of threat detection mechanisms.
- Spearheaded the automation of manual processes, streamlining operations and reducing response time for security incidents

EDUCATION

Bachelor of Science (Information Systems)
SMU School of Computing and Information Systems **Aug 2023 - May 2027**

Grade: Summa Cum Laude

- Specialising in Product Development
- Second Major in Computing Studies, Artificial Intelligence Track
- Dean's List AY 23/24, AY 24/25

Diploma in Network Systems & Security, Ngee Ann Polytechnic **Apr 2018 - Apr 2021**

- Specialised in Data Security & Forensics
- CSIT Diploma Scholar
- Represented in WorldSkills Singapore IT Network Systems Administration

PROJECT EXPERIENCE

Internal Content Management System **May 2025**

- Built internal content management system for local company
- Integrated with Microsoft Graph API
- Streamlines BAU operations and information dissemination

Bank Customer Relationship Management (CRM) System **Jan 2025 - Apr 2025**

- Co-developed a CRM system for a global bank to enhance customer data management and streamline transaction record handling.
- Designed and implemented a cloud-native architecture that utilises AWS services, ensuring availability, scalability, maintainability, and compliance with financial industry regulations.
- IaC, automated infrastructure provisioning using Terraform to streamline deployment

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS, JavaScript (React, Vue, Next), TypeScript, Java, Spring Boot, Python, Flask, PHP, Linux
- **Languages:** English, Mandarin.
- **Certifications:** Cisco Certified Entry Networking Technician (CCENT), Cisco Certified Network Associate (CCNA), Oracle Certified Foundations Associate, AWS Certified Solutions Architect – Associate (AWSSAA)
