SKILLS

- FRONTEND:-** HTML, CSS, JAVASCRIPT, JQUERY, BOOTSTRAP, KENDO UI
- BACKEND:-** ASP.NET CORE, MVC, WEB API, C# ,AJAX
- DATABASE:-** POSTGRESQL
- TOOLS:-** GIT, VISUAL STUDIO, POSTMAN
- OTHER SKILLS:-**UNIT TESTING, PRODUCTION TESTING

EDUCATION

- Master of Computer Application (MCA)
LNCT University, Bhopal
2021 Sep – 2023 May
- Bachelor of Computer Application (BCA)
Makhanlal Chaturvedi University, Bhopal
2017 Aug – 2020 June

PROFILE

Experienced .NET Developer with 1+ years of expertise in full-stack development, specializing in ASP.NET Core, MVC, and PostgreSQL. Skilled in building scalable, high-performance applications with a focus on seamless user experiences and robust backend systems. Successfully contributed to live projects, including Skyline Stock Exchange and BLS International, with proven capabilities in unit testing, production testing, and UI optimization. Adept at collaborating with cross-functional teams to deliver solutions aligned with business goals.

WORK EXPERIENCE

- XtraNet Pvt Ltd Technologies – Bhopal, India
(Software Developer) Sep 2023 -Present
 - Enhanced UI and performance of existing .NET Core applications, reducing load times by 15%.
 - Designed and implemented CRUD operations for core modules, ensuring data accuracy in PostgreSQL.
 - Developed a Slot Monitoring Dashboard for real-time data visualization, improving operational efficiency by 25%.
 - Collaborated with the QA team for rigorous testing and production readiness.
- Skyline Stock Exchange Project
 - Built scalable APIs using ASP.NET Core to handle secure data exchange between trading modules.
 - Improved application performance through backend optimization, reducing API response times by 30%.
 - Participated in end-to-end unit and production testing to ensure stability in a high-pressure environment.
- BLS International Project
 - Conducted detailed production testing, identifying and resolving critical issues pre-deployment.
 - Contributed to optimizing backend services and improving application reliability by 40%.

KEY PROJECTS

- Slot Scheduler Application
 - Designed and implemented a multi-stage workflow to streamline resource allocation and slot approvals.
 - Developed robust front-end interfaces using Kendo UI, ensuring a seamless user experience.
 - Integrated email notifications for real-time updates, improving communication and team efficiency.
 - Conducted thorough testing to maintain high application quality.
