PROFESSIONAL SUMMARY

Data scientist and mathematician with over 8 years of experience, specializing in healthcare from Stanford. Currently leading data science projects at Walmart across 5 countries in Central America, with hands-on expertise in Google Cloud Platform, big data techniques, data modeling, normalization and optimization, ML, and AI. Certified TensorFlow Developer.

Expert Top 6%

Ranked 3,328 out of 60,662+ globally

EDUCATION

MSc in Applied Mathematics

Universidad Internacional de La Rioja

In progress

BEng Data Science

Universidad del Valle de Mexico

Overall Grade Average 9.5

AI in Healthcare

Stanford - Medicine

- Introduction to Healthcare
- Introduction to Clinical Data
- Fundamentals of Machine Learning for Healthcare
- Evaluations of AI Applications in Healthcare
- AI in Healthcare Capstone

TensorFlow Developer

DeepLearning.AI

- Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning
- Convolutional Neural Networks in TensorFlow
- Natural Language Processing in TensorFlow
- Sequences, Time Series and Prediction

Architecting - Google Compute Engine

- Google Cloud Fundamentals:
 - Core Infrastructure
- Essential Google Cloud Infrastructure:
 - Foundation
 - Core Services
 - Scaling and Automation
- Reliable Google Cloud Infrastructure: Design and Process

EXPERIENCE

Walmart Mexico y Centro America - Inetum

Data Scientist

Jan 2025,

Present

- Developed end-to-end ML solutions for the retail industry.
- Applied mathematical thinking and problem-solving.
- Utilized big data techniques, data normalization, transformation, and query optimization.

Key Project: Developed a robust Price Elasticity of Demand model from scratch, estimated to drive a **\$20M USD** increase in sales.

Business Intelligence Developer

July 2023

to Jan 2025

- Develop end-to-end BI solutions for Big Data.
- Query Optimization, Big data techniques.
- Big Data (GCP, HIVE, Big Query, Dataiku).
- Data Modelling, Analysis, and Visualizations.
- Storritelling

Master Class: Data Normalization, data Modeling.

Advanced Technology Services

Sr. Data Analyst- HR & EHS

Sep 2021 to

July 2023

- Build end-to-end BI Solutions for HR.
- Automatization of manual process using Python scripts.

Key Project: Realtime Dashboards usign API for Social media data (Hashtags, visits, likes)

Sr. Data Analyst- EHS

Feb 2021 to

Sep 2021

- Built and maintain reports for EHS team
- Key Project:** Development of end-to-end automated data flows for the analytics team, covering 80% of the department's reporting, empowering the analyst team and allowing for my promotion to cross-functional projects.

Epicor Software

Sr. Data Analyst

July 2018

to Dec 2021

- Analysis and standardization (BigData)
- Data management, data cleaning.
- SQL | Access | Excel
