SUMMARY

As a **Data Scientist | Analyst** with **over 2 years** of professional experience, I am passionate about **harnessing the power of data** to uncover valuable insights and develop strategic plans that drive business growth. My expertise lies in utilizing **BI Tools, analytical functions and data retrieval methods** to deliver **predictive models and actionable recommendations**. With a strong commitment to excellence and a deep love for the data-driven process, I am dedicated to helping companies succeed by leveraging data to its fullest potential.

SKILL

[Python](#) | [DAX](#) | [Power Query](#) | [R](#) | [C](#) | [Matlab](#) | [PowerBI](#) | [Tableau](#) | [Qlik Sense](#) | [SQL](#) | [MongoDB](#)

[Data Modelling](#) | [Analysis](#) | [Visualization](#) | [Apache Spark](#) | [Airflow](#) | [Git](#) | [Github](#) | [Web Scrapping](#)

EXPERIENCE

12/2022 - Present

Karachi, PK

Lead Data Scientist

Trukkr

- Design & Manage **Data Lake & Data Warehouse**.
- Deploy **NoSQL to SQL** database **Data Pipelines** using **Python**.
- Data Analysis & Visualization to **identify patterns, trends, and insights** through **PowerBI**.
- Assist the company in launching a **SaaS Analytical Service**, improving customer acquired rate by **30 - 35%**.
- **AWS** Cloud Service Management
- Manage and **Lead a Data Team** by guiding them and collaborative learning

05/2022 - 12/2022

Karachi, PK

Senior Business Intelligence Developer

Trax

- Lead and conducted in-depth analysis of **Business Performance vs Targets**.
- Deploy **ETL Pipelines** using **MySQL and Power Query**.
- Utilizing **Advance SQL Queries**, creating stored procedures, views, triggers etc.
- **Create, Publish, & Automate Analytical Reports** using Power BI and Power Automate.
- **Dashboarding**, helping the company in **Decision Making** and **Generating Alerts**.
- Communicate with Internal Departments for **QA and Evaluating Workflow**.

03/2020 - 09/2021

Nanjing, CHN

Data Analyst

VS Work

- **Analyze strategies** through the analysis of related products, markets, and share trends.
- **Identify & Analyze Regional trends** with business strategy implication.
- **Collect, Organize & Extract Data** to generate **Valuable Insights**.
- Utilize Power BI and Microsoft Excel to **Identify & Monitor Potential Clients**.

EDUCATION

2019 - 2021 Nanjing, CHN	Masters of Aircraft Control System Engineering Nanjing University of Aeronautics and Astronautics Grade 88 / 100 (Thesis Remaining)
2015 - 2019 Nanjing, CHN	Bachelors of Aeronautical Engineering Nanjing University of Aeronautics and Astronautics Grade 87 / 100
2013 - 2015 Nanjing, CHN	A' Levels Beaconhouse School System Grade 2A*, 1A

CERTIFICATION

Virtual Data Analyst Program PwC - PricewaterhouseCoopers
Certified Data Engineer Karachi AI - Community of AI Practitioners
Certified Viz Expert Karachi AI - Community of AI Practitioners
Introduction to DAX SQL BI
DAX Tools SQL BI

PROJECT

1. Datawarehousing & Analytics - Trukkr

Architecting **Data Warehouse** & deploying **ETL pipelines for NoSQL to SQL data transfer**, ensuring **data integrity & automation**. Utilizing that data, to create **SaaS Dashboards** that provide analytics to stakeholders according to their requirements.

3. Credit Risk Modelling ([Link](#))

Analyze **Credit Applications**, **Reduce Risk**, & ensure **Profitability** using **Machine Learning** and **Risk Analysis**. Using realistic loan datasets from kaggle.com that simulate actual credit applications, I **Analyze** and **Process Data** effectively, identifying key **Dimensions** influencing loan financial risk. By combining advanced ML algorithms with business rules, developed a comprehensive framework for evaluating credit applications & **Optimizing Lending Decisions**.

2. Data Pipeline & Visualization ([Link](#))

Complete end-to-end data project. **Scraped & Transformed** data & **Load** it to Google Sheets utilizing **Google APIs**. Leveraged that data for visualization through a **Dashboard App** using **Streamlit & Python**.

4. Data Analysis

A data analysis project utilizing **Power BI** and **Tableau** to analyze and visualize **Hubway Bike**, **Call Center**, & **Super Store** datasets. Successfully **Identified** customer **Behavior Patterns**, **Optimized** bike station **Locations**, **Improved** call center **Performance**, and **Enhanced Sales Strategies** through data-driven insights. Created **Interactive Dashboards & Reports** to facilitate **decision-making** & collaborated with cross-functional teams to drive business growth.
