PROFESSIONAL SUMMARY

Detail-oriented Data Engineer with 5 years of experience in designing and optimizing data pipelines, ensuring data integrity, and enhancing data accessibility for analytics and reporting.

WORK EXPERIENCE

Network Data Engineer

Seaside Innovations

Dec / 2020-Ongoing
Santa Monica, CA

- 1. Engineered robust data pipelines to extract, transform, and load data from Redshift to S3, enhancing data flow efficiency.
- 2. Designed and executed SQL Runner Jobs for seamless data ingestion from S3 into Redshift, ensuring data accuracy.
- 3. Conducted data deduplication and profiling, improving data quality across multiple production tables.
- 4. Streamlined data import processes from S3 and SQLWorkbench to Redshift, optimizing data accessibility.
- 5. Performed performance tuning on tables, adjusting Distribution and Sort keys to enhance query performance.
- 6. Utilized Explain and Analyze commands for optimizing long-running queries, significantly reducing execution time.
- 7. Executed DBA tasks, including Vacuum and Analyze operations, to maintain database health and performance.

Data Engineer

Cactus Creek Solutions

Dec / 2019-Dec / 2020
Phoenix, AZ

- 1. Collaborated with data scientists to develop automated decision-making systems for seller performance management.
- 2. Created a performance ranking system for sellers, enabling visualization of key performance metrics.
- 3. Refined Seller Performance metrics by constructing de-normalized tables for Perfect Order Percentage calculations.
- 4. Conducted data mining and aggregation to lower customer complaint rates and enhance product quality.
- 5. Utilized CDW and ETLM to build comprehensive databases for calculating customer complaint rates.

EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley

Dec / 2018-Dec / 2019
Phoenix, AZ

Focused on data structures, algorithms, and database management systems.

SKILLS

ACHIEVEMENTS

- ★ Optimized data pipelines, reducing processing time by 30% and improving data accessibility.
- ★ Implemented data quality checks, resulting in a 25% decrease in data errors.
