### SKILLS

Statistical Programming

10

Data Visualization

7

Data Mining

10

Deep Learning

10

Natural Language Processing

10

Statistical Modeling

8

### INTERESTS

★ Surfing

🥋 Martial Arts

👥 Community Service

📝 Blogging

### STRENGTHS

⌚ Patience

🏔️ Perseverance

📅 Planning

⚙️ Positivity

### LANGUAGES

English

Arabic

German

### ACHIEVEMENTS

★ Developed a predictive model that improved customer retention by 20%.

★ Implemented machine learning algorithms that reduced operational costs by 15%.

### PROFESSIONAL SUMMARY

Innovative Data Scientist with 7 years of experience in data analytics and machine learning, specializing in predictive modeling and statistical analysis. Proven track record of transforming complex data into strategic insights that drive business growth. Adept at leveraging advanced algorithms and data visualization techniques to enhance decision-making and operational efficiency.

### WORK EXPERIENCE

#### Data Scientist

📅 Apr / 2020–Ongoing

Quantum Solutions LLC

📍 Phoenix, AZ

1. Developed predictive models and machine learning algorithms to analyze chemical systems and optimize drug design processes.
2. Implemented statistical techniques for data mining and algorithm development, enhancing the accuracy of chemical database queries.
3. Designed and created a hierarchical database for efficient graph isomorphism searches, significantly improving data retrieval times.
4. Collaborated in a team environment to produce object-oriented code using best practices in software design.
5. Leveraged artificial neural networks to correlate chemical structures with drug-likeness, identifying novel compounds.
6. Engineered new ANN algorithms improving predictions of drug-likeness through advanced back-propagation techniques.
7. Conducted rigorous statistical analysis to support drug development initiatives and improve project outcomes.

#### Data Scientist

📅 Apr / 2018–Apr / 2020

Lakeside Apparel Co

📍 Chicago, IL

1. Utilized machine learning algorithms to automate processes, significantly improving operational accuracy and efficiency.
2. Developed BI reports providing predictive analytics, improving performance tracking and client engagement.
3. Defined project scopes and collaborated on proof-of-concept machine learning algorithms, enhancing project deliverables.
4. Performed data cleaning and feature engineering, optimizing predictive models using Scikit-learn.
5. Executed ad-hoc data analyses using SQL on Amazon AWS, generating actionable insights for business strategies.
6. Implemented pipelines for feature extraction using MapReduce, enhancing data processing capabilities.

### EDUCATION

#### Master of Science in Data Science

📅 Apr / 2016–Apr / 2018

University of California, Berkeley

📍 Chicago, IL

Focused on machine learning, statistical analysis, and data visualization techniques.
