

OLAOYE ANTHONY SOMIDE

Data & AI Solutions Engineer | [WEBSITE](#) | [LINKEDIN](#) | [GITHUB](#)

PROFILE SUMMARY

Data & AI Solutions Engineer with a decade of experience, specializing in architecting and deploying intelligent, scalable, and secure data solutions that drive innovation for future-oriented, AI-powered companies.

WORK EXPERIENCE

Lead Data & AI Consultant *Mar 2025 - Present*

CipherSense AI | Lagos, Nigeria | Remote | Self-Employed

- Developed and deployed AI solutions that boosted client productivity by up to 500%, resulting in over \$1 million in annual operational cost savings.
- Led the curation & structuring of high-quality datasets for training & fine-tuning domain-specific Large Language Models.
- Spearheaded the ideation and development of flagship AI products, including DataLens AI Studio and CropSense AI.

Senior Data Engineer *Feb 2024 - Mar. 2025*

LifeCheq (Pty) Ltd. | Cape Town, South Africa | Remote | Contract

- Designed and developed internal analytics platform that enhanced stakeholder decision-making, improving efficiency by up to 300%.
- Partnered with cross-functional teams, including ML engineers and Product Managers, to seamlessly deploy new AI functionalities.
- Engineered a high-throughput data pipeline to ingest over 20+ backend event sources into a centralized Data Lake.

Lead Backend Data Engineer *May 2023 - Feb. 2024*

NatureAlpha.ai | London, UK | Remote | Contract

- Spearheaded the development of secure and cost-effective data pipelines to efficiently processing millions of data records daily.
- Successfully implemented robust data governance and privacy strategies across multiple AWS & GCP accounts.

Data & Software Engineer *Jul. 2020 - Apr 2023*

UN - World Food Programme (WFP) | Rome, Italy | Hybrid | Full-Time

- Developed an event-driven alerting system for natural disasters monitoring, improving emergency response time by 40%.
- Led the migration of applications to a serverless architecture, achieving 70% savings in AWS costs & improved system scalability.

GIS Developer/Geo-Database Manager *Nov. 2016 - Jun 2020*

United Nations - MINUSMA | Bamako, Mali | On-Site | Full-Time

- Led the development and management of enterprise GIS solutions and databases, ensuring high availability and reliability.

EDUCATION

Northumbria University, UK.

MSc. Computer Science with Artificial Intelligence. (Oct, 2023)

Rome Business School Nigeria

MSc. Entrepreneurship & Innovation (Sept, 2025)

University of Nigeria, Nsukka.

BSc. Geo-informatics. (Aug, 2015)

SKILLS & COMPETENCES

- Software Development
- Data Engineering
- Cloud Engineering
- Systems Architecture
- Machine Learning
- Generative AI / LLMs
- Agentic AI Development
- API Development
- AI Workflow Integration
- Data Modelling
- Google Cloud
- Amazon Web Services (AWS)
- Databricks
- Microsoft Azure
- SQL
- Python
- Data Structures and Algorithms
- DevOps Automation
- Technical Documentation
- Agile Project Management
- Team Leadership
- Product Management
- Decision Making

CERTIFICATIONS

- [Google Cloud Certified Professional ML Engineer](#)
- [Microsoft Certified: Azure AI Fundamentals](#)
- [AWS Certified Data Engineer – Associate](#)
- [Databricks Certified Data Engineer Professional](#)

PUBLICATIONS

- [Real-time Twitter Data Analytics \(ElasticSearch & Kibana\)](#)
