ACHIEVEMENTS

🌟 Implemented a CI/CD pipeline reducing deployment time by 50%.

🌟 Automated infrastructure provisioning, decreasing setup time by 30%.

PROFESSIONAL SUMMARY

With a decade of expertise in AWS DevOps, I excel in automating cloud infrastructure and optimizing CI/CD pipelines. My proficiency spans AWS services such as EC2, S3, and CloudFormation, driving operational efficiency and system resilience. I am dedicated to implementing innovative solutions that enhance collaboration and deliver exceptional results.

WORK EXPERIENCE

Associate AWS Devops Engineer

📅 Jan / 2018-Ongoing

Pineapple Enterprises

📍 Santa Monica, CA

1. Developed ETL processes and data models using tools like SAP Data Services and Informatica for data integration.
2. Implemented configuration management with tools such as Ansible, Chef, and Puppet to streamline deployments.
3. Designed and deployed Cassandra clusters on AWS, ensuring high availability and scalability.
4. Managed AWS environments with Multi-AZ configurations within a layered VPC architecture.
5. Automated cloud infrastructure using Terraform and AWS CloudFormation for efficient resource management.
6. Enhanced CI/CD pipelines by integrating Jenkins with Docker and AWS services for continuous delivery.
7. Monitored system performance using AWS CloudWatch and optimized resources to reduce costs.

AWS Devops Engineer

📅 Jan / 2015-Jan / 2018

Cactus Creek Solutions

📍 Phoenix, AZ

1. Oversaw technical alignment of DevOps processes across global projects, ensuring best practices in source control and dependency management.
2. Led the implementation of a Continuous Delivery pipeline utilizing Docker, Jenkins, and AWS AMIs.
3. Transitioned staging and production environments to a bare-metal architecture running Docker, enhancing resource utilization.
4. Managed AWS EC2 instances, configuring Ubuntu Linux and Windows servers with Puppet for automated management.
5. Defined and implemented Puppet Master and Agent configurations to maintain system integrity.

EDUCATION

Bachelor of Science in Computer Science

📅 Jan / 2012-Jan / 2015

University of California

📍 Seattle, WA

Focused on software engineering and cloud computing principles.
