

Viswajit Dey

Solution Architect | Cloud Infrastructure | DevOps | Security | Automation | iamviswajitdey@gmail.com | [LinkedIn](#) | [Website](#)

PROFESSIONAL SUMMARY

Experienced and results-driven DevOps Engineer with over 4 years of experience in designing and implementing scalable cloud infrastructure and automated CI/CD pipelines. Adept at delivering end-to-end solutions that align business needs with technical capabilities. Proficient in cloud platforms such as AWS, Azure, and Google Cloud, and experienced in containerization, microservices architecture, and application integration. Proven track record in driving digital transformation by enhancing business agility and competitiveness.

Specialized in DevOps practices, infrastructure as code, and managing enterprise-level solutions for complex, global organizations. Skilled in collaborating with cross-functional teams, identifying technology gaps, and ensuring that solutions meet both business and technical requirements. Experienced in evaluating software products, designing integration strategies, and providing technical leadership across multiple teams.

WORK EXPERIENCE

Platform Engineer, IBM Consulting

Noida, India | 2025 – Present | Clients – Nestlé

- Lead end-to-end solution architecture for MuleSoft iPaaS, supporting 9+ business groups across a global F&B client with \$100B+ revenue.
- Delivered scalable and secure integration strategies for cross-application solutions, enhancing business capabilities and facilitating digital transformation.
- Worked closely with cross-functional teams to implement DevSecOps practices, ensuring robust architecture security and governance.
- Designed and implemented cloud-based solutions, leveraging Azure to modernize legacy systems, resulting in improved speed-to-market and scalability.
- Collaborated on designing REST APIs and event-driven architecture to enhance system flexibility and interoperability.

Software Engineer, HCL Technologies Ltd.

Noida, India | 2022 – 2025 | Clients – Nestlé & Tenneco

- Delivered architectural designs for 10+ CI/CD pipelines, translating business requirements into technical specifications, which resulted in a 30% faster release cycle.
- Guided the integration of MuleSoft API Gateway and SonarQube for security and quality assurance, ensuring 95% code coverage and reducing vulnerabilities by 60%.
- Implemented event-driven architectures using Apache Kafka to improve real-time data processing across multiple microservices.
- Led the deployment of scalable Kubernetes clusters and microservices architecture to support 50+ production applications in Azure Kubernetes Service (AKS).
- Provided technical leadership to internal teams and stakeholders, guiding them on aligning architecture with business objectives and ensuring compliance with industry standards.
- Delivered technical documentation using UML and C4 diagrams to communicate complex system architecture and integration patterns.

TECHNICAL SKILLS

- Languages & Scripting:** Bash, Python
- Cloud Platforms & Services:** Azure (Functions, Vault, AAD, Blob), AWS (EC2, IAM, S3, Lambda, Boto3), Google Cloud Platform
- Solution Architecture & Integration:** Event-driven architecture, MuleSoft API Gateway, Confluent Kafka, Microservices, REST/SOAP APIs
- Infrastructure as Code (IaC):** Terraform, CloudFormation
- CI/CD & Automation:** GitHub Actions, Azure DevOps, ArgoCD
- Containers & Orchestration:** Docker, Kubernetes, Helm
- Monitoring & Observability:** Prometheus, Grafana, ELK Stack
- Security & Compliance:** SonarQube, Snyk, Azure Key Vault, IAM Policies
- Tools & Others:** SQL, REST APIs, Postman, LeanIX, Domain Driven Design, Agile, Scrum

EDUCATION

- Bachelor of Computer Applications (BCA)**
Amity University Online (Work-Integrated with HCLTech) | 2022 – 2025 | CGPA: **8.14**
- Master of Computer Applications (MCA)**
Manipal University Jaipur (Online) | Currently Pursuing

CERTIFICATIONS

- Salesforce MuleSoft Certified Developer – L1
- Microsoft Azure Fundamentals – AZ900
- AWS Certified Cloud Practitioner
- GitHub Foundations – GH900
- GitHub Actions – GH200
- GitHub Copilot – GH300
- Google Cloud Digital Leader
- GCP Certified – Associate Cloud Engineer

HONORS & AWARDS

- Medallion of Excellence – Cloud Computing, IndiaSkills 2024 Nationals, awarded by the Ministry of Skill Development and Entrepreneurship, India.
- Recognized by Roshni Nadar Malhotra, Chairperson, HCLTech, for contributing the highest CSR volunteering hours Pan-India (2024).

VOLUNTEERING

- Participated in 150+ CSR activities with HCL Foundation (The CSR arm of HCLTech), focused on initiatives like education for underprivileged children, early childhood care, biodiversity conservation, animal welfare, water conservation, and more.
