🌟 ACHIEVEMENTS

🌟 Reduced deployment time by 40% through automation of CI/CD pipelines.

🌟 Implemented infrastructure as code using Terraform, improving scalability and reliability.

👤 PROFESSIONAL SUMMARY

Seasoned DevOps Engineer with 10 years of experience in cloud architecture, automation, and CI/CD processes. Expertise in enhancing AWS infrastructure and implementing robust deployment strategies. Proven ability to streamline operations and foster collaboration across teams to achieve high-quality software delivery. Eager to leverage innovative solutions to optimize system performance and drive business outcomes.

💻 WORK EXPERIENCE

Senior DevOps Engineer I

📅 Jan / 2018-Ongoing

Blue Sky Innovations

📍 Chicago, IL

1. Designed and implemented automation frameworks to support large-scale cloud deployments.
2. Architected end-to-end CI/CD pipelines, improving deployment efficiency and reducing errors.
3. Developed and maintained configuration management systems for consistent environment setups.
4. Collaborated with cross-functional teams to enhance application performance and reliability.
5. Utilized monitoring tools to identify and resolve system bottlenecks effectively.
6. Established best practices for cloud security and compliance across AWS environments.
7. Conducted training sessions for team members on DevOps methodologies and tools.

Senior DevOps Engineer

📅 Jan / 2015-Jan / 2018

Cactus Creek Solutions

📍 Phoenix, AZ

1. Worked with various teams to refine and automate cloud infrastructure processes.
2. Streamlined deployment processes through the implementation of Jenkins and Docker.
3. Developed automated scripts for application deployment and system updates.
4. Led the transition to a DevOps culture, enhancing collaboration between development and operations.
5. Implemented best practices for continuous integration and delivery across multiple projects.

🎓 EDUCATION

Master of Science in Computer Science

📅 Jan / 2012-Jan / 2015

Stanford University

📍 Portland, OR

Focused on cloud computing, systems architecture, and software engineering.
