PROFESSIONAL SUMMARY

Full-Stack Developer with 4 years of professional experience building and shipping modern web applications. Strong background in React, Node.js, Express, and PHP, with rapid prototyping and automation in Python. Experienced in AI-assisted development using tools like Cursor and Antigravity, and in integrating large language models (Anthropic Claude) to improve product scalability and user experience.

WORK EXPERIENCE

May 2022- Present

Eisenbach Consulting LLC | IT Park, Cebu City
Mid - Fullstack Developer

- Maintain and enhance company WordPress websites, including content updates, feature development, performance optimization, and troubleshooting.
- Develop and support internal business systems using Next.js, MySQL, JavaScript, and REST APIs.
- Maintain and improve legacy applications built with PHP, CodeIgniter, Laravel, and jQuery.
- Integrate third-party and external APIs for business operations, automation, and data synchronization.
- Collaborate with stakeholders to implement new features, resolve technical issues, and improve workflow efficiency.
- Use modern AI-assisted development tools such as Cursor to accelerate development, debugging, and code maintenance.
- Handle full software development lifecycle tasks including backend development, frontend implementation, database management, testing, and deployment.

July 2021 – Oct 2021

PHINMA | Makati City
IT Intern

- Optimized website performance, security, and maintenance for company WordPress websites.
- Developed an automated Loan Application System with real-time loan calculation and validation logic.
