BACKGROUND

Migracode

WEB DEVELOPMENT STUDENT (FULL TIME)
Oct. 2019 - Present

As part of my training at Migracode, I learned how to use HTML5, CSS3, JavaScript, React & Bootstrap to build responsive and inclusive websites.

Regarding back-end, I learned to use API, Node.js, Dbeaver and Postman to work with the database.

For the final project (Project 121), I built a prototype for a website that aimed to help students to book appointments with Migracode's mentors.

Opium Barcelona
