EDUCATION

California State University Long Beach

Long Beach, CA

Bachelor of Science in Computer Science (GPA: 3.8)

May 2025

President's Honor List, Honors Society, Outreach Coordinator for ISA

Relevant Coursework: Data Structures, Algorithms, System Programming, Databases, Machine Learning

EXPERIENCE

Mobile App Developer

Orange County, CA

GlamHere

Jan 2026 – Current

- Implemented authentication, database, and backend services with **Supabase** to support core product workflows
- Built a cross-platform mobile app using **React Native**, delivering a native user experience across iOS and Android
- Developed, built, and deployed mobile applications using **Android Studio** and **Xcode** for platform-specific configuration, debugging, and release management
- Integrated **Stripe** for secure payments and subscription/checkout flows
- Added **Google Maps** for location-based discovery and **Google Calendar** for scheduling and event sync

Software Engineering

Remote

Voyax Health

June 2025 – Current

- Designed reusable UI components using **Next.js** and styled them with **Tailwind CSS** for seamless integration
- Implemented backend endpoints by integrating with existing **AWS Lambda** functions to manage patient
- Connected endpoints to a **Postgres** database, designing schemas and managing migrations
- Automated build and deployment workflows/environments using **GitHub Actions** to support CI/CD
- Maintained documentation via **Miro**, team communication via **Slack**, and tracked progress using **Jira**

Full-Stack Developer

Orange County, CA

Dinan Solutions

May 2024 – December 2025

- Spearheaded development of a frontend mobile application using **Flutter** and **Docker** containers, achieving a **25% increase** in performance for both online and offline use
- Lead team in web development using **React**, **Vite**, and **Typescript** to maximize user ease of access
- Implemented secure authentication with **Azure AD**, **Key Vault**, and utilizing **OAuth/JWT tokens**
- Developed using **Agile** methodology with **Storybook** testing, improving overall memory efficiency by **30%**
- Created an overarching design system in **Figma**, speeding up implementation by **25%**
- Designed and implemented the architecture of the application using a **Kubernetes** model and **microservices** backend, able to support **5,000+ users** with a scalable infrastructure
- Implemented APIs of different services using **Dotnet** and **C#** through a complex backend
- Built a robust **Azure DevOps** pipeline to import artifacts for private libraries reducing deployment time by **50%**

PROJECTS

Degreeely

August 2023 - January 2024

- Developed in **Redux** for state management, **PHP** for server-side scripting, and TablePlus for database management along with **MySQL**
- Spearheaded the development of 5 new API endpoints utilizing **PHP** and many UI updates using **React.js**

BulkImageAi | Shopify

September 2025 - Present

- Developed a full-stack **Remix** application bootstrapped with **Vite**, implementing SSR and route loaders
- Deployed the application to **AWS** using **App Runner** for containerized hosting, **Amazon RDS** for database management, and **Amazon S3** for static storage
- Integrated with **Shopify** APIs and Shopify Payment APIs as an embedded app within a Shopify store

TECHNICAL SKILLS

AI & LLM Systems: Claude Code (Anthropic), OpenAI Codex, Google Gemini, LLM prompt engineering, AI agent workflows, autonomous coding pipelines, API-based AI integrations

Languages: Python, JavaScript/Typescript, SQL/NoSQL, C/C++/C#, HTML5/CSS

Frameworks & Technologies: Node.js, React.js, React Native, Next.js, Remix, Flutter, Hono, Spring, Tailwind CSS, Bootstrap

Cloud & Infrastructure: AWS (Lambda, App Runner, RDS, S3), GCP, Docker, Kubernetes, Linux

Databases: Postgres, MongoDB, MySQL, Supabase, Prisma

Developer Tools: VSCode, PyCharm, IntelliJ, Jupyter Notebook, Postman, Figma

Management: GitHub, Jira, Slack, Azure DevOps, Agile/Scrum
