PROFESSIONAL SUMMARY

I'm a backend developer with a strong interest in building scalable, reliable server-side systems that power modern web applications. I have professional experience working with Django and PostgreSQL, focusing on API development, authentication, and database design. I enjoy writing clean, maintainable code and improving performance through efficient query optimization.

While my primary focus is backend development, I also have hands-on experience with React, TypeScript, and Redux Toolkit, which helps me collaborate effectively in full-stack environments. I'm comfortable working with tools like Docker, GitHub Actions, and Postman for testing and deployment. My goal is to build data-driven applications that balance performance, maintainability, and real-world usability.

EDUCATION

Academia International College
B.Sc.CSIT

Gwarko, Lalitpur
2021 - 2025

Moonlight Higher Secondary School
+2 Science

Kumaripati, Lalitpur
2018 – 2020

WORK EXPERIENCE

FEB, 2025 – MAY, 2025

MERN STACK DEVELOPER INTERN
Wisdom Technologies Pvt. Ltd.
Koteshwor, Kathmandu

- Developed and optimized UI components using React and TypeScript.
- Implemented state management using Redux Toolkit (RTK) to enhance application performance.
- Utilized basic Docker and GitHub Actions to containerize the application and deploy it on a VPS.
- Integrated a third-party payment system using IME Pay to generate dynamic QR codes for seamless transactions.
- Tested backend endpoints using Postman and improved API performance through route optimization

AUG, 2025 – NOV, 2025

FRONT-END DEVELOPER INTERN
Intellisoft Nepal Pvt. Ltd.
Buddhanagar, Kathmandu

- Developed pixel perfect UI from the given design.
- Used Git for version control and collaboration with other developer.
- Adapted to the fast pace working environment with a can-do attitude.
- Developed and maintained frontend applications using React JS,Type script, Hooks, and REST API.

DEC, 2025 – Present

BACKEND DEVELOPER (DJANGO)
Codesc Nepal Pvt. Ltd.

- Build and maintain backend application using Django and Django Rest Framework (DRF).
- Worked in a project involving multi-tenant setup using Django-tenants.

PROJECTS

Game Recommendation System | <https://github.com/riticbenz123/Game-Recommendation-System>

- Developed a full-stack web application using Django for the backend and React for the frontend.
- Implemented a cosine similarity algorithm to calculate and rank game recommendations based on user preferences.
- Integrated the recommendation engine with the user interface to deliver dynamic, personalized game suggestions

CV Builder | <https://cv-builder-frontend-g774.onrender.com>

- Developed a CV builder platform for creating professional ATS friendly CV using ReactJs and NodeJS.
- Used Puppeteer library to handle CV download feature.

Personal Portfolio | <https://riticrajbyanjankar.com.np>

- Created a personal portfolio using React to highlight skills and projects in a clean, responsive layout.
- Implemented Framer Motion for engaging animations and integrated Nodemailer to handle contact form submissions via email.

CERTIFICATES

MERN Stack Course (Skill Spark)

- Gained hands-on experience in building full-stack applications using React for the frontend and Node.js with Express for the backend.
- Gained hands-on experience in building full-stack applications using React for the frontend and Node.js with Express for the backend.

ADDITIONALS

Languages: Fluent in Nepali, English, and Nepal Bhasa.

Learning: A curious, growth-driven learner who thrives on exploring new tools, frameworks, and ideas.

Adaptability: Comfortable working across different tech stacks and design systems.

Collaboration: Experienced with Git-based workflows and team-based version control
