

TANNA MANSI MAHESHBHAI

Middle IOS Developer

SUMMARY

Software Engineer with 3.5+ years of experience, specializing in iOS development with Swift and Android development with Kotlin. Proficient in leveraging frameworks like UIKit, SwiftUI, CoreData, AVFoundation, and technologies like MVVM, VIPER, and Clean Swift.

Demonstrates strong proficiency in application performance, memory management, and advanced photo editing application development. Holds a Computer Engineering degree and has a solid foundation in coding principles and software development practices. Worked on notable projects involving video streaming, e-commerce applications, and organizational management tools.

TECHNICAL SKILLS

Main Technical Skills	Swift (3 yr.), Kotlin (2 yr.), SwiftUI, Viper
Programming Languages	Kotlin (2 yr.), Swift (3 yr.)
Android Libraries and Tools	Android Jetpack, Kotlin (2 yr.), Room (Android Jetpack)
Mobile Frameworks and Libraries	ExoPlayer
Databases & Management Systems / ORM	Realm, SQLite
Azure Cloud Services	Azure App Service
Third Party Tools / IDEs / SDK / Services	Android Jetpack
Version Control	BitBucket
Deployment, CI/CD & Administration	CI/CD
iOS Libraries and Tools	Core Media, SwiftUI, UIKit, Viper
Methodologies, Paradigms and Patterns	FDD (2 yr.), TDD
Codecs & Media Containers	Ffmpeg
Mail / Network Protocols / Data transfer	WebRTC
Other Technical Skills	CoreML, MetaKit, No code, Problem-solving, Social SDK

WORK EXPERIENCE

iOS Developer, Photo up! Photo Editor and Maker

Duration: 05/2023 - Present

Summary:

- Photo editing tool to level up photo editing skills which provided various options like trim, crop, cut, applying filters, erase, restore and many more
- Works with image, text, sticker, and pattern
- Worked on in-app purchase for premium users

Responsibilities: Worked from scratch on the application, developed premium features, integrated in-app purchases.

Technologies: Swift, UIKit, AVFoundation, MetalKit, RevenueKit, CoreML, Vision

iOS Developer, Dropkick

Duration: 05/2023 - Present

Summary: E-commerce application for sneaker enthusiasts, showcasing latest trends and brands like Nike, Jordan, and others.

Responsibilities: Collaborated with the design and product teams to create a user-friendly shopping experience, implemented VIPER architecture.

Technologies: Swift, UIKit, KML, FirebaseServices, SocialLogin, VIPER

iOS Developer, Under Armour ME

Duration: 05/2023 - Present

Summary: Online application tailored for Middle East fitness enthusiasts, offering premium performance and style products.

Responsibilities: Participated in product development, introduced social login feature for a region-specific audience.

Technologies: Swift, UIKit, KML, FirebaseServices, SocialLogin, VIPER

Mobile App Developer, MediaCentric

Duration: 05/2021 - 04/2023

Summary: App for organization management including task management, budgets, comments, and various user roles.

Responsibilities: Developed cross-platform features, handled database integration with Realm for iOS and RoomDB for Android.

Technologies: Swift, UIKit, Realm, Kotlin, RoomDB

Mobile App Developer, WEV

Duration: 05/2021 - 04/2023

Summary: Sports-based communication application allowing team creation, player invitations, challenges, video posting, and footage creation.

Responsibilities: Focused on video streaming features, integrating ExoPlayer and AVFoundation for Android and iOS respectively.

Technologies: Swift, AVFoundation, Kotlin, ExoPlayer

EDUCATION

- **Computer engineering**

LDRP institute of technology and research, Gandhinagar
08/2017 - 06/2021

- **H.S.C.**

A success school
05/2015 - 05/2017

- **S.S.C.**

Vivekanand school
03/2014 - 03/2015
