## PROFILE

Experienced mobile app developer with over 4+ years of expertise in Android development and 2.5+ years in cross-platform development using React Native and Flutter. Adept at creating high-quality, user-centric applications and managing their deployment on the Google Play Store. Proven track record of delivering innovative solutions that meet client requirements and enhance user experience.

I am an open-minded individual with a proven track record in developing complex applications.

## WORK EXPERIENCE

### Prefortune Technologies LLP, Rajkot

2022 - PRESENT

Sr. Mobile Application Developer (Team Leader)

- Led a cross-functional team in designing and implementing innovative mobile applications to meet client requirements and deadlines.
- Facilitated Agile ceremonies to enhance team collaboration and productivity while mentoring junior developers.

### iWeTechs, Rajkot

2021 - 2022

Cross-Platform Mobile Developer

- Developed cross-platform mobile applications using React Native and Flutter, ensuring compatibility on both Android and iOS while delivering solutions that meet client needs and business objectives.
- Optimized and refactored code to enhance application performance and efficiency, ensuring a high-quality user experience across platforms.

### AppsExtent, Rajkot

2020 - 2021

Android Developer

- Developed and optimized high-performance, scalable Android applications, delivering innovative solutions that aligned with client requirements and business goals.
- Ensured seamless integration and deployment of apps on the Google Play Store, while enhancing user experience through intuitive UI/UX design and the implementation of the latest technologies.

# CONTINUOUS LEARNING INITIATIVES

---

## NextLevel Fit: Fitness Tracker

- **Description:** NextLevel Fit, elevates your workout experience, ensuring no calorie goes uncounted and every weight lifted brings you closer to your fitness goals. It is more than just an app. It's a holistic fitness partner that tracks all your workout and dietary progress.
- **Technologies Used:** Kotlin, Java, Firebase, RESTful APIs, Google Ads
- **Link:** <https://play.google.com/store/apps/details?id=com.nextlevelfit>

## Rest Stops Ahead

- **Description:** This innovative travel app has been re-designed to display route maps that highlight rest stop locations with RV DUMPING, PET- FRIENDLY, and other preferred services. Importantly, because of health risk concerns, it also shows expected CROWD LEVELS at each facility.
- **Technologies Used:** Kotlin, Java, Firebase, RESTful APIs, in-app subscription, MapBox, Chat Module
- **Link:** <https://play.google.com/store/apps/details?id=com.reststopahead>

## Medical AI SureCheckup

- **Description:** SureCheckup: Health Tracker is your all-in-one solution for managing and improving your health. Whether you're focused on fitness goals, monitoring chronic conditions, or simply striving for a healthier lifestyle.
- **Technologies Used:** React-Native, RESTful APIs, Google Ads
- **Link:** <https://play.google.com/store/apps/details?id=com.surecheckup>
