Collaboration: Agile/Scrum • Team Leadership • Technical Mentorship • System Architecture Design

WORK EXPERIENCE

O Nepali Inc.

Lynnwood, WA

Mobile App Engineer

May '25 – Present

- Planned and defined system architecture using tools like Miro and Eraser.io.
- Designed data schemas to support scalable application development.
- Built a kids' learning app inspired by Duolingo, Khan Academy, and Lingokids, with a focus on language learning and content consistency.
- Implemented secure authentication flows (Google, Facebook, email, and guest login).
- Researched and prepared datasets aligned with human language learning patterns.
- Utilized Google Apps Script to automate workflows and handle project-specific tasks.

neelgAI Technology Pvt. Ltd.

Budhanilkantha, Kathmandu, Nepal

Mobile App Developer III

June '24 – May '25

- Led the development of Donde, a timeline tracking app combining features of Google Timeline, Relive, TikTok, and Snapchat.
- Built in-app algorithms for smooth timeline tracking, personalized highlights, and a better user experience.
- Integrated AI-based content generation to provide users with personalized insights and recommendations.
- Worked as frontend lead for Neelcamp, a platform helping parents find safe and top-rated after-school programs and camps.
- Collaborated with teams to implement accurate geolocation using Mapbox.

Amadico Nepal Pvt. Ltd.	Tokha, Kathmandu, Nepal
Senior Frontend Developer	June '24 – Nov '24
• Led the development of a cross-platform Hospitality Management System (HMS) using Flutter for Android, iOS, and Web, ensuring a consistent user experience. • Collaborated with the team to design and implement a robust ERP system with modules for POS, user management, inventory, HR, accounting, and authentication. • Developed role-based permission controls to strengthen security and streamline user management. • Worked closely with frontend and backend teams to integrate and optimize system performance, improving operational efficiency for hospitality clients.	
ShotCoder Tech Pvt. Ltd.	Old Baneshwor, Kathmandu
Lead Mobile App Developer	Jan '24 – July '24
• Led development of the Shikshya SaaS app, focusing on architecture, UI/UX, and cross-platform functionality. • Built logistics applications for courier operations, improving efficiency and user experience. • Collaborated with designers to create intuitive and visually appealing interfaces. • Applied best practices in mobile app development to ensure performance, scalability, and code quality. • Developed cross-platform Flutter apps from a single codebase for Android and iOS.	
E-Digital Nepal Pvt. Ltd.	Tinkune, Kathmandu, Nepal
Flutter Developer	Mar '20 – Apr '24
• Built and maintained SMS, CMS, UMS, LMS, and Mayor apps used by schools, universities, municipalities, and consultancies. • Served as the only mobile app developer in a 50+ member team, responsible for end-to-end delivery of apps. • Improved UI/UX design across applications, increasing usability and client satisfaction. • Contributed to the success of EduTech SaaS platforms, making them more scalable and widely adopted.	
Siddhartha Vanasthali Institute	Panauti, Kavre, Nepal
Computer Technician	Jan '19 – Apr '20
• Provided technical support and creative solutions for computer systems and lab operations. • Solved technical issues quickly, keeping lab operations running smoothly.
