Computer engineer and network administrator

+971 581 699 642

abdelhakimboucetta@gmail.com

Barsha - Al Barsha 1 - Dubai

PROFESSIONAL SUMMARY:

Qualified computer network engineer with 4+ years of experience and expertise in various computer languages and operating systems (Raspbian, Windows, Unix). Strong problem-solver with excellent communication skills and ability to work well under pressure. Seeking a team where I can utilize my skills and qualities to make a positive impact.

PROFESSIONAL EXPERIENCE:

SARL HFT Security

Computer Engineer | 01/2019 – 12/2022

- Configuring and installing alarm and CCTV systems.
- Setting up computer networks.
- Installing and maintaining network equipment such as routers, switches, and cables.
- Managing servers, including the IP telephony system.
- Troubleshooting and resolving technical issues related to computer hardware, software, and networking.
- Providing technical support and training to end users on the use of computer systems, software, and equipment.

CILAS LAFRAGE

Project Manager (FREELANCER) | 05/2020 - 09/2020

- As a project manager, I was responsible for overseeing the installation and programming of an access control system, as well as designing a mobile and desktop application and developing a website. My technical expertise and attention to detail ensured that these projects were completed successfully and to the satisfaction of my clients.

EDUCATION:

2017 – 2019 | Master's degree in Network and Information and Communication Technologies
UNIVERSITY OF MOHAMED KHIDER, BISKRA ALGERIA

LANGUAGES:

Arabic (fluent), English (advanced), French (intermediate)

TECHNICAL SKILLS:

- Virtualization, network administration, and database administration
- Web development: HTML5, CSS, JavaScript and programming in C, C++, JAVA (J2EE)
- Configuring and installing alarm and CCTV systems, installation and programming of access control systems
