

# MUNAZA SARWAR

+61448282904 | munaza929@gmail.com

Highly skilled and certified **Network Development Engineer** with **7+ years of experience** in design, implementation, and operational support of complex network infrastructures within **ISP and Enterprise environments**. Proven expertise in **IP network operations, troubleshooting, and lifecycle management** with hands-on experience in **multi-vendor technologies** including **Cisco, Huawei, and Juniper**. Proficient in delivering **secure, scalable, and high-performance networks**, with a strong focus on automation, risk mitigation, and incident management. Adept at collaborating with cross-functional teams to ensure network stability, reliability, and alignment with business objectives.

## Core Competencies

Advanced Network Design & Implementation | Problem-Solving & Troubleshooting | Risk Evaluation & Mitigation | Network Automation & Optimization | Cross-Functional Team Collaboration | Customer-Centric Solutions Delivery | Multi-vendor network environments (Cisco, Huawei, Juniper) | Deploying scalable, robust, and secure network solutions | Integrating and upgrading 5G technologies | Drafting comprehensive MOPs, LLDs, and network diagrams | Hands-on experience in high-stakes environments (Expo 2020, AWS).

## Professional Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                            |

## Education

---

### **BS Electrical Engineering (Telecommunications)**

COMSATS University

## Certifications

---

**HCIE (Routing & Switching)** – Certified (#11597)

**CCNP Enterprise** – Certified

**CCNA** – Certified

**CCIE SP** – Training Completed (Written Exam Passed)

## Professional Skills

---

**Routing:** RIP, OSPF, ISIS, BGP, MPLS, MPLS VPNs

**Switching:** VLAN, STP, EtherChannel, Port Security

**WAN Technologies:** IP/MPLS (L2VPN, L3VPN), IPsec

**IP Services:** NAT, DHCP, SNMP, IP SLA, FHRP, NTP

**Hardware Expertise:** Cisco (ASR9k, 9300, Nexus 9k) and Huawei (NE40E, CX600, ATN) routers/switches

**Monitoring Tools:** SolarWinds, Cisco Prime, Aruba Airwave
