

HARPER LEWIS

Network Engineer - IT Systems Specialist

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Accomplished Network Engineer with over 5 years of experience in designing and maintaining scalable network systems. Proficient in optimizing routing protocols and ensuring robust security measures. Demonstrated ability to troubleshoot complex network issues and implement effective solutions that enhance overall performance and reliability.

WORK EXPERIENCE

Network Engineer - IT Systems Specialist

Seaside Innovations

📅 May / 2021-Ongoing

📍 Santa Monica, CA

1. Configured, maintained, and troubleshooted dynamic routing protocols including BGP, OSPF, and EIGRP on Cisco routers.
2. Managed the deployment of Cisco's FlexConnect and ensured timely updates for ACI policies.
3. Designed unique BYOD solutions utilizing Riverbed Steelhead and Cisco ISE for enhanced network accessibility.
4. Oversaw the operation of network facilities, ensuring optimal performance across multi-shift operations.
5. Conducted routine testing and analysis of network components, proactively addressing potential issues.
6. Supervised personnel involved in the support and operation of large-scale network systems.
7. Collaborated with cross-functional teams to implement effective network solutions and improvements.

Network Engineer Intern

Silver Lake Enterprises

📅 May / 2020-May / 2021

📍 Seattle, WA

1. Diagnosed complex networking issues using specialized software and hardware tools, enhancing system performance.
2. Executed improvements on network systems to optimize reliability and security.
3. Implemented security measures to protect sensitive data and ensure compliance with industry standards.
4. Monitored and maintained appropriate security controls across digital infrastructure.
5. Managed traffic policy adjustments via Cisco PIX firewall, enhancing network security.
6. Supported core network operations utilizing Cisco 7200 series routers with OSPF configurations.

EDUCATION

Bachelor of Science in Computer Networking

University of Technology

📅 May / 2019-May / 2020

📍 Seattle, WA

Focused on network infrastructure, design, and security protocols.

SKILLS

Network Security

Wireless Networking

Network Troubleshooting
Tools

Network Architecture

ACHIEVEMENTS

- ★ Reduced network downtime by 30% through proactive monitoring and maintenance.
- ★ Implemented a new firewall configuration that enhanced security and reduced vulnerabilities by 40%.
- ★ Successfully migrated legacy systems to a modern network infrastructure, improving efficiency by 25%.
