

PROFESSIONAL SUMMARY

- Experience working in a Banking company with an ITIL based environment maintaining Service Level Agreement (SLA) for our internal and client support in a multi data center setup.
- Experience in installation, configuration, and troubleshooting of Cisco routers/switches, Security products (Palo Alto), F5 load balancer, and other networking/system integration products provided by the company.
- A strong background in **Cloud Computing, Scripting, Networking, Virtualization, Wintel, and Security** with experience serving large enterprises including TD Bank, NRT technologies, and Intelnet Global Services.
- Excellent communication, **customer service**, and presentation skills.

EXPERIENCE

TD Bank, Toronto

Oct 2019 – Now

Sr. Network Analyst – NOC Shift Lead

Proficient handling of TD bank's multi-site Data Centers enterprise environment aiming to maintain and necessitate industry-standard availability, reliability, security and scope for expansion

- Providing network support to **TD investment** and **Crown Jewel** Applications.
- Managing Cisco **SD-WAN & DMVPN** designed solutions for **8000+ network devices** across Canada and USA.
- Operational management of software defined Data Center network segmentation through **VMware NSX, Cisco ACI**, and Guardicore Centra
- Performing **L2/L3 troubleshooting** on Cisco routers, switches, firewalls for a quick resolution of outages.
- Performing upgrades, replacements, and maintenance of the **Cisco/Palo Alto/ BIG-IP F5** network devices.
- Configuring and administrating applications load balancing through **BIG-IP F5** Load Balancers (GTM's and LTM's) including management of **300+** physical/Virtual F5 appliances.
- Proficiently executing **diagnostic techniques** with a sound foundation of monitoring tools which include Cisco vManage, Splunk, Tivoli ITNM, Vitalnet, Cisco Prime, QIP, NetScout, Riverbed, HP network Automation (HPNA), CyberArk, Net Flow, NetBrain, Cisco DWDM, SNMPv2/3, Wireshark and Service Now
- Coordinating with ISPs to resolve **Network/latency/bandwidth** related issues.
- Managing **Aruba wireless** networks using Aruba Airwave and Aruba Central system for 30,000+ Access Points infrastructure.
- Configuring and troubleshooting **F5 load balancers**, analyzing Palo-Alto logs, and monitoring **VMware infrastructure**.
- Managing **day to day activities of Azure cloud environment**, supporting development teams with their requirements.

NRT Technology Corp. Toronto

Sep 2018 – Oct 2019

NOC Engineer

- Proactively monitored and identified network problems using SPLUNK and PRTG.
- Administered **Azure AD IAM/PIM, MFA**, and managed **Azure infrastructure** (VMs, Storage accounts, and Licenses)
- Used **PowerShell** to write scripts to automate the processes, migration of **VMs**, and offboarding users.
- Performed **L2 troubleshooting** on routers (2800, 2900, 4200), switches (3500, 3600, 3700), and firewalls
- Setup and troubleshoot **VPN tunnels (IKE phase 1 & IKE phase 2)** from customer location to NRT on ASA Firewalls
- Configured **VPN policies** and NAT both on Cisco ASA and Palo Alto firewall rules to allow only authorized users to access the applications adhering to **PCI** standards.
- Configured SNMP alerts for network equipment and VPN status from PRTG and **Cisco ASDM**

- Provided support for Network related incidents to call center executives regarding systems and software tools.
- Maintained enterprise network setup including **Cisco UCM, Routers/Switches, and Cisco Access-points**.
- Handled network related problems, implementations, and queries.
- Assisted in the **analysis of LAN/WANs** to determine network performance problems.
- Coordinated with ISP's for network issues and engaged 3rd party vendors for hardware issues (Cisco TAC, Palo Alto).
- Ensured **Network/Systems/Data Availability** and Integrity through preventive maintenance and upgrades during business maintenance window.

TECHNICAL SKILLS

- **Operating Systems:** - LINUX, Windows Server Platforms.
- **Programming Languages/Scripting:** - Python, PowerShell, Azure CLI.
- **Routing Protocols:** - RIP, EIGRP, OSPF, TCP/IP, BGP, MPLS, SDN, CISCO ACI.
- **Cloud Solutions:** - Microsoft Azure, AWS, SAAS, IAAS, PAAS.
- **Networking Kit:** - Active Directory, vSphere, SolarWinds, Wireshark, VPN gateways.
- **Virtualizations:** - VMWARE ESXI, HYPER V, Kubernetes, Docker Containers.
- **LAN/WAN Technologies:** - VLAN, VTP, STP, 802.1x, ACLs, VOIP, SIP, MPLS, SD-WAN, Stack wise, VRFs.
- **Infrastructure Protocols:** - DHCP, DNS, SMTP, POP3, FTP, TFTP, Reverse Proxy, NGINX, Apache
- **Ticketing Tools:** - ConnectWise, Salesforce, ServiceNow.
- **Network Security & Managements:** - NAT/PAT, VPN, IDS/IPS, ACLs, DHCP Snooping, SNMP, SSH, VPN, DMVPN, GRE, IPSEC, NGFW, SIEM, DHCP, IPS/IDS, micro-segmentation, CyberArk, HIPA, NIST, PCI-DSS.
- **Automation Tools:** - Python, Terraform, Ansible, POSTMAN, REST APIs, CI/CD, GitHub.
- **Cloud Technologies:** - Azure AD/Connect, IAM, PIM, Azure Key-Vault, AKS, Azure container registry, Sentinel.

EDUCATION

Wireless Networking & Computer System Technician (PG Diploma) George Brown College (Toronto, Canada)	2017 - 2018
Bachelor of Technology (Electronics and Communication) Punjab Technical University (India)	2012 - 2016

CERTIFICATIONS

- **AZ-104 - Microsoft Certified: Azure Administrator Associate**
- **AZ-300 - Microsoft Azure Architect Technologies**
- **CCNP Enterprise (RS)**
- **CCNP SD-WAN Solutions**
- **CCNA Dev-Net Associate**
- **Palo Alto Networks Certified Network Security Engineer (PCNSE)**
- **Logic Monitor Certified Associate**
