🔗 http://nishantpuri.in

Critical thinking DevOps Engineer (6+ years) with a passion for streamlining software development processes and optimizing system performance. With a strong background in Cloud engineering, software development, GenAI, Networking and system administration, I bring a unique blend of technical expertise and creative problem-solving skills with respect to multiple cloud platforms (AWS, GCP) and networking technologies.

📜 CERTIFICATES

Google Professional Cloud DevOps Engineer •
AWS Certified Advanced Networking – Specialty •
Cisco Certified DevNet Associate •
AWS Certified Solutions Architect – Associate

🧠 SKILLS

Google Cloud Platform
Amazon Web Services
Terraform
Bitbucket
Bamboo
Jira
Python
Jenkins
Docker
Kubernetes
GenAI
Security/Firewalls
Routing/Switching

🎓 EDUCATION

Lovely Professional University, B.Tech, Computer Science

06/2014 – 05/2018 | Jalandhar, India

💼 PROFESSIONAL EXPERIENCE

Sr. Cloud DevOps Engineer, Blackbuck Insights, (Client: American Eagle Outfitters.)
11/2021 – Present | Bangalore, India

- **Cloud Platforms:** Create, configure, and manage cloud resources on multi-cloud platforms: GCP (Compute Engine, BigQuery, Cloud Storage, Cloud Logging, Composer, Cloud SQL) and AWS (IAM, EC2, RDS, S3, VPC, CloudWatch, CloudTrail, ELB, KMS).
- **Infrastructure as Code (IaC):** Used Terraform to define, deploy, and manage cloud infrastructure as code, ensuring consistency and efficiency.
- **Containerization:** Worked with Docker and Kubernetes to create and manage containerized applications, optimize deployment processes, and enable efficient scaling and management.
- **Automation:** Used Python and Bash scripting for automating tasks, improving operational efficiency, and reducing manual intervention.
- **AI & RAG Integration:** Integrated GenAI into DevOps workflows by building a RAG-powered assistant for Jira automation, leveraging Vertex AI and backend services to streamline issue management and automate operational tasks.
- **Security:** Implemented robust security measures using IAM roles, ensuring a least-privileged model, used KMS, VPC, and network security configurations to ensure compliance with industry standards and regulations.
- **CI/CD:** Implemented automated CI/CD pipelines using tools like Jenkins and Atlassian Bamboo for seamless application deployment.
- **Collaboration and Documentation:** As a Team Lead, I collaborated with cross-functional teams to understand application requirements and ensure successful deployments. I also maintained thorough documentation of deployment processes, configurations, and troubleshooting procedures.

Cloud/Network Engineer, Blackbuck Insights

08/2019 – 10/2021 | Bangalore, India

- Designing, implementing, and maintaining network security measures to protect the organization's AWS VPC network from unauthorized access or attacks using Fortigate NexGen firewalls and various AWS services such as IAM, Security Hub, Certificate Manager, VPN, and CloudTrail.
- Designing, deploying, and managing the AWS infrastructure, which includes virtual machines (EC2), storage (S3), networking (VPC), and security services (IAM, KMS, CloudTrail), CI/CD (CodeCommit, CodeBuild, CodePipeline, CodeDeploy), and other serverless services such as AWS Lambda, API Gateway, ECS, CloudFront, RDS, etc.
- Trained new teammates on technologies such as Amazon Web Services and Cloud Networking.
