EDUCATION

UCLA ANDERSON SCHOOL OF MANAGEMENT

Los Angeles, California

Master of Financial Engineering

Expected December 2025

- *Relevant Courses:* Machine Learning, Quantitative Asset Management, Risk Management, Behavioral Economics, Derivatives, Empirical Methods, Fixed Income, Trading/Fintech, Stochastic Calculus, Investments, Econometrics and Financial Accounting

CALIFORNIA INSTITUTE OF TECHNOLOGY

Pasadena, California

Bachelor of Science in Physics

October 2017 – June 2022

- *Awards:* Vicenti Scholar
- *Relevant Courses:* Probability and Statistics, Multivariable Calculus, Linear Algebra, (Partial) Differential Equations/Complex Analysis, Quantum Mechanics, Statistical Mechanics and Computational Physics

SKILLS

- *Technical Skills:* Python, SQL, Docker, Microsoft Office, Mathematica

PROFESSIONAL EXPERIENCE

KRYPTON LABS

Houston, Texas

Remote Python Developer

December 2023 – January 2024

- Implemented impermanent loss risk metric for cryptocurrency market making algorithm to allow investors to compare Krypton's exchange with competitors

CHISHOLM FINANCIAL LABS

Austin, Texas

Quantitative Finance Intern

September 2019 – May 2020

- Redesigned and rebuilt back-end production P&L reporting from scratch, resulting in a highly modular, efficient, and maintainable system using a Python script and Airflow for scheduling
- Transformed a labor-intensive process into a fully automated system, reducing operation time daily from hours to minutes while maintaining high-quality output
- Increased Sharpe ratio of the firm's portfolio by 7% by researching and implementing a dynamic leverage trading model

CALTECH PHYSICS LABORATORY

Pasadena, California

Teaching Assistant

January 2019 – June 2020

- Ranked in the top 5% of TAs based on student evaluations
- Taught three sections of twenty students each in data analysis and how to interpret results during experiments and homework

LEADERSHIP & INVOLVEMENT

CALTECH STUDENT INVESTMENT FUND

Pasadena, California

Contributing Member

October 2017 – June 2022

- Performed deep research on the AI and semiconductor supply chains and anticipated an increased demand for chips produced by TSMC, AMSL, and Nvidia.
- Recommended semiconductor investments that outperformed the market and achieved a 36-month horizon return of 152%

PHI KAPPA TAU

Los Angeles, California

Scholarship Chair

December 2020 – January 2022

- Reduced student probation rates by 25% by implementing an academic support system through initiatives including maintaining a Google Drive folder with notes and resources for common classes and organizing fraternity wide study sessions where brothers could study and ask for help

ADDITIONAL INFORMATION

- *Awards:* Eagle Scout, 3x Chemistry Olympiad National Finalist, 2x ACF College Quizbowl Nationals Qualifier, 6th Place Overall NAQT High School National Quizbowl Championship
- *Activities:* NCAA Division 1 Fencing, Quizbowl
- *Interests:* Fantasy Football, Global Markets, Current Events/Global Politics, Continental/Political Philosophy, Constitutional Law, Cinema, Classical Music, Science Fiction
