### EDUCATION

#### Bsc. Computer Science

##### St. Mary's University

Sept, 2021 - Feb, 2025

#### BA in Management

##### Addis Ababa University

Sept, 2021 - Jun, 2025

### SKILLS

#### Technical Skills:

- Python (Django, Flask)
- SQL (PostgreSQL, SQLite, supabase)
- Web Development (HTML, CSS, JavaScript, Bootstrap)
- Frontend (Vue.js - basic understanding)
- Data Analysis (Power BI, Excel, Data Visualization, Data Entry)
- API Integration & Postman
- Version Control (Git, GitHub)

#### Soft Skills:

- Strong communication and teamwork
- Problem-solving and critical thinking
- Adaptability and willingness to learn
- Leadership and project management.

### CERTIFICATIONS

- Python For Beginners
- Intermediate Python
- Data Analysis Fundamentals
- Exhibition Participation
- Employment Readiness

### LANGUAGE

- Amharic
- English
- Arabic

### ABOUT ME

I am a skilled Python web developer and data analyst with expertise in Django and Flask. I have strong experience in database management, SQL, and analyzing complex datasets to drive business decisions. Passionate about financial technology, problem-solving, and creating dynamic, user-friendly web applications, I excel at both backend and frontend technologies like HTML, CSS, and JavaScript for seamless functionality.

### WORK EXPERIENCE

#### Zamzam Bank - Head Quarter's Digital Hub | Intern

##### February 2025 - present

- Implement innovative digital solutions to modernize operations.
- Work on digital initiatives to deliver measurable, data-backed outcomes.
- Work with cross-functional teams to enhance workflows and customer experience.

#### Data Entry and Customer Service Intern | Zamzam Bank

##### August 2024 - October 2024

- Entered and updated 150+ records with 99% accuracy.
- Analyzed customer data to identify trends and enhanced banking services.
- Resolved 90%+ of customer issues, strengthening communication and problem-solving skills.

#### Software Developer Intern | SantimPay Financial Solutions

##### June 2024 - August 2024

- Managed and optimized 200+ data records, improving accuracy by 98%.
- Integrated APIs to ensure seamless system communication.
- Ran database queries and backups, reducing data retrieval time.
- Gained hands-on experience in fintech operations and web development.
- Built and enhanced a Vue.js web application, improving user experience by 30%.

### PROJECTS

- Internsphere:** Developed a platform to connect interns and companies, implementing authentication, role-based access, and student application management using Django & Vue.js.
- Oswuaa Technologies:** Developed a platform connecting electricians with clients by building user profiles, integrating service scheduling, and enabling real-time interactions using Django, PostgreSQL, and Supabase.
- Hakim Center:** Built a medical service platform linking patients with nurses using Flask, focusing on authentication, user management, and secure data handling.

### MEMBERSHIPS & EXTRACURRICULAR ACTIVITIES

- Tech Exhibitions:** Showcased innovative web solutions for two consecutive years(2023 and 2024), demonstrating problem-solving skills and technical expertise, and received certification for outstanding participation.
- Computer Science Club:** Active member of the c.s club at St. Mary's University, contributing to events and initiatives.
- GitHub & Projects:** Actively develop and maintain projects.
- Community Engagement:** Participate in industry events and workshops to stay updated(GDG Events and Dev Meetup Series).
