Spanish

ACHIEVEMENTS

★ Developed a dynamic web application that improved user engagement by 30%.

★ Automated data processing tasks, reducing processing time by 40%.

PROFESSIONAL SUMMARY

Versatile Python Developer with 5 years of experience in creating and optimizing web applications. Skilled in using frameworks like Django and Flask, I excel in full-stack development and data manipulation. Passionate about implementing effective solutions to enhance system performance and deliver seamless user experiences.

WORK EXPERIENCE

Hadoop / Python Developer

Seaside Innovations

📅 Jan / 2022-Ongoing

📍 Santa Monica, CA

1. Contributed to the design and development of web applications using Python, Django, and Flask.
2. Implemented data integration and analytics solutions leveraging Python and Hadoop technologies.
3. Created RESTful APIs to facilitate communication between front-end and back-end systems.
4. Developed efficient data processing scripts, optimizing data flow and management.
5. Maintained comprehensive technical documentation for application deployment and maintenance.
6. Collaborated with cross-functional teams to ensure high-quality deliverables.
7. Enhanced application performance through code optimization and best practices.

Python Developer

Crescent Moon Design

📅 Jan / 2020-Jan / 2022

📍 Portland, OR

1. Developed Python scripts for data parsing and loading into databases.
2. Utilized Pandas for data manipulation, transforming datasets into actionable insights.
3. Engaged in environment setup, including code installations and version control.
4. Processed third-party data into structured formats using Python libraries.
5. Ensured data integrity and quality through rigorous testing and validation.

EDUCATION

Bachelor of Science in Computer Science

State University

📅 Jan / 2018-Jan / 2020

📍 Seattle, WA

Focused on software development, algorithms, and data structures.
