

ETHAN MARTINEZ

Python Developer

PROFESSIONAL SUMMARY

Motivated Python Developer with 2 years of experience in crafting dynamic web applications using Django and Flask. Proficient in API development and database management, I am eager to apply my skills to enhance system functionality and user engagement.

WORK EXPERIENCE

Jr. Python Developer Jan / 2024-Ongoing
WidgetWorks Inc. Denver, CO

- Engineered user-friendly web interfaces using Django's templating language and views.
- Applied HTML, CSS, and JavaScript to enforce UI/UX standards across the application.
- Designed and implemented RESTful APIs to streamline data communication between front-end and back-end.
- Utilized AngularJS for front-end development, enhancing user interactivity and experience.
- Developed comprehensive testing plans to ensure application reliability and performance.
- Integrated third-party APIs to extend functionality and improve user engagement.
- Participated in code reviews and collaborated with cross-functional teams to refine application features.

Python Developer Jan / 2023-Jan / 2024
Crescent Moon Design Portland, OR

- Automated data parsing from XML to database storage using Python scripts.
- Leveraged Pandas for data manipulation and analysis, facilitating efficient data processing.
- Contributed to the setup and maintenance of development environments and version control systems.
- Streamlined data processing workflows, enhancing data accessibility and reporting.
- Ensured data integrity and quality through rigorous testing and validation procedures.

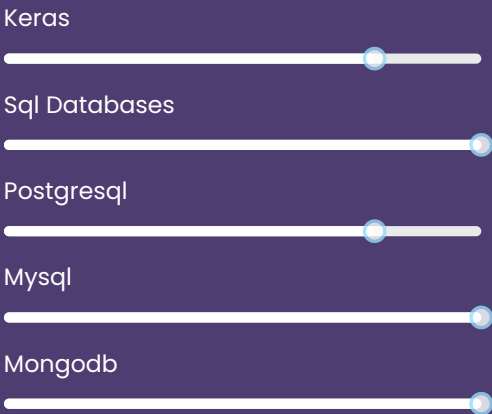

EDUCATION

Bachelor of Science in Computer Science Jan / 2022 - Jan / 2023
University of Technology Seattle, WA

Focused on software development, algorithms, and data structures, with coursework in web development and database management.
