

Saleh Ahmadi

Senior Software Engineer

Location: Vienna, Austria Email: contact@salehahmadi.com Website: salehahmadi.com LinkedIn: linkedin.com/in/salehahmadi
GitHub: github.com/SalehAhmadi

Summary

Senior Software Engineer with 8+ years of experience in designing and developing scalable web applications using .NET, C#, JavaScript and cloud technologies. Proven track record in leading high-impact projects, optimizing system performance, and mentoring teams. Passionate about software architecture, cloud computing, and delivering business-driven solutions.

Experience

SignPath GmbH

Vienna, Austria

Senior Software Engineer (Full-time)

Dec 2025 - Present

- Contribute to the full development lifecycle of SignPath’s cybersecurity SaaS platform, from feature design and implementation to testing, deployment, and production support.
- Develop and maintain backend services and product components in C# and .NET 10, with a focus on maintainability, testability, security, and reliability.
- Research CI/CD platforms, SAST tools, and vulnerability scanners, and implement product integrations using REST APIs and plugin-based architectures.
- Develop and improve integrations with Azure DevOps, GitHub Actions, TeamCity, and Jenkins to support software signing, verification, and secure CI/CD workflows.
- Build and maintain automation using PowerShell, while contributing to Kubernetes and Helm-based deployment and configuration workflows.
- Collaborate with product management and engineering teams through technical design, peer reviews, pair programming, troubleshooting, and the evaluation of AI-assisted engineering tools.

Aspian

Tehran, Iran

Senior Full-Stack Developer - Technical Lead (Full-time)

Oct 2021 - Jan 2025

- Led a team of 10+ developers in designing and implementing microservices architecture using .NET 8, Docker, RabbitMQ, and Kafka.
- Improved system scalability and reduced response times by 40% through performance optimizations.
- Successfully migrated legacy applications to .NET 8 and Angular 17, enhancing maintainability and user experience.
- Implemented Elasticsearch to enable real-time data indexing, reducing query time by 60%.
- Spearheaded DevOps initiatives using Azure DevOps and Git, streamlining deployment processes and reducing deployment failures by 30%.
- Mentored junior developers, improving team productivity and reducing onboarding time by 50%.

Aspian

Tehran, Iran

Full-Stack Developer (Full-time)

Dec 2018 - Oct 2021

- Developed a DDD-oriented microservices system for Iran’s Integrated Maritime Administration System (IMAS), optimizing port operations.
- Implemented Power BI and Kibana dashboards, improving data-driven decision-making for stakeholders.
- Optimized system performance, reducing operational costs by 20%.

Remis

Tehran, Iran

Senior Full-Stack Developer - Team Lead (Contract - in association with Aspian)

Sep 2023 - Jan 2025

- Led the development of the Automatic Identification System (AIS), a vessel tracking technology enhancing maritime safety.
- Integrated Satellite-AIS (S-AIS), extending vessel tracking capabilities by 40% in remote regions.
- Ensured full compliance with International Maritime Organization standards.

Neka Telecom

Tehran, Iran

Senior Full-Stack Developer (Contract - in association with Aspian)

Sep 2022 - Sep 2023

- Architected an e-commerce system that streamlined the bulk sale of mobile operator prepaid top-up pins, increasing transaction efficiency by 35%.
- Integrated POS-based banking facilities, facilitating seamless payments for over 2,300+ agents.

Narin Co.

Tehran, Iran

.NET Developer (Part-time)

Jun 2016 - Dec 2018

- Built and maintained 20+ ASP.NET MVC applications, enhancing UI/UX and backend efficiency.
- Improved SQL database performance, reducing query execution time by 35%.
- Increased customer satisfaction by delivering projects 100% on time.

Education

Islamic Azad University Central Tehran Branch

Computer Software Engineering

Conducted research on travel recommender systems, contributing to academic publications.

Master's degree • 3.85 GPA

Jan 2021 - Sep 2023

Islamic Azad University Damavand Branch

Computer Software Engineering

Bachelor's degree • 3.4 GPA

Sep 2012 - Jul 2016

Skills

Programming

C#, .NET, ASP.NET, T-SQL, TypeScript, JavaScript, Angular

Cloud & DevOps

CI/CD, Azure DevOps, GitHub Actions, TeamCity, Jenkins, Docker, Kubernetes, Helm, RabbitMQ, Kafka

Database Management

SQL Server, MongoDB, Elasticsearch, Redis, MySQL, PostgreSQL, Oracle Database

Architecture

Cloud Computing Software Architecture Patterns, Microservices, CQRS, DDD, Event-Driven

Software Development

Agile Methodologies, SDLC, Design Patterns, Security Best Practices

Soft Skills

Problem-Solving, Team Leadership, Effective Communication

Languages

English

C1 - Professional working proficiency

Persian

C2 - Native
