EXPERIENCE

Citytech Group Pvt Ltd - Software Development (Trainee)

July 2025 – Present

- Developed major frontend modules for **FinPOS Terminal Management, GetPay Member, and Merchant Portal** using React.js, TypeScript, Ant Design/MUI, React Hook Form, Redux, and Tanstack Query.
- Built a **complete dynamic form builder** for the GetPay Member Portal that renders **100+ system configuration parameters** from a custom JSON schema
- Designed a reusable component architecture and shared UI library adopted across multiple portals, reducing duplication and improving development consistency.

Citytech Group Pvt Ltd - Software Development (Intern)

April 2025 – June -2025

- Built a full-stack **Coupon Management System** from scratch to production using React.js, Typescript, Redux, Tailwind CSS, Ant Design, NestJS, Mikro ORM, and Postgres.
- Delivered a fully functional, production-ready management system within 2 months, covering end-to-end design, development, and deployment.

FREELANCE

Park N Wash by Huwoma - MERN Stack Developer

Sept 2024 - Jan 2025

- Developed a full-stack **Carwash, Simracing and Parking Management System** featuring customizable service packages, revenue analytics, role based feature access.
- Optimized database performance by implementing MongoDB indexing and Redis caching reducing query response time.
- Developed a **PWA app for a handheld Android POS** device to record customer data and carwash, simracing and parking transactions with thermal receipt printing.

SELECTED PROJECTS

Project Phoenix - ReactJS, ExpressJS, Mongodb, RTK Query, Tailwind, Vercel

Aug 2024

- Developed an award-winning centralized college project management platform (Project Phoenix) that won **"Best Project of NCIT 2024"**, streamlining the entire lifecycle of student projects from submission to evaluation.
- Implemented automated result generation and progress tracking features, significantly reducing administrative overhead and improving transparency in project evaluation.
- Built comprehensive project management features including deadline management, extension requests, and progress monitoring tools to enhance student-supervisor collaboration.

TECHNICAL SKILLS

Core Frontend: JavaScript (ES6+, DOM), TypeScript, ReactJS, NextJS, HTML5, CSS3

Styling and UI: Tailwind CSS, Shadcn, Ant Design, Material UI, Responsive/Mobile-first UIs, Reusable Components

State and Data: Redux, Context API, Tanstack Query, RTK Query, React Hook Form

Backend: Node.js, Express.js, NestJS, Postgres, MongoDB, TypeORM, Mikro ORM

Build and Tools: Git, GitHub, Postman, Webpack, Vite, VS Code, Vercel

Testing: Jest, React Testing Library (foundational knowledge)

Other: C, C++, Java

EDUCATION

Bachelors in Software Engineering

2019 – 2024

Nepal College of Information Technology (NCIT)

Balkumari, Lalitpur
