EXPERIENCE

Microsoft

December 2024 - Present

Software Engineer - Microsoft Teams

- Solved critical call flow bugs affecting 10–15M enterprise users, significantly improving calling reliability and UX.
- Increased call escalation success rate by 1% across 40M+ monthly scenarios by leading key reliability features.
- Drove reliability improvements in Teams Free, increasing calling reliability by 9% for millions of users.
- Drove test excellence by expanding critical scenario coverage and increasing existing test pass rates by 30%.
- Led migration of test tenants under new security requirements, preserving 100% test coverage on tight deadline.

Tech: React, Kusto (KQL), Debugging, Jest, Playwright, Copilot, Azure DevOps, Git, Scrum, Telemetry, Logging, PowerShell.

Washington State Board for Community and Technical Colleges

February 2023 - November 2024

Software Developer

- Led the development of three full-stack [web applications](#), featuring responsive and accessible UIs with mobile support, serving 50+ colleges and 200,000+ users, remarkably enhancing operational efficiency.
- Prevented 250+ accessibility issues and became WCAG compliant through accessibility training and testing.
- Streamlined reporting for admins by developing a new reporting suite, generating 300+ monthly reports.
- Built an embeddable [tutor schedule](#), resolving critical display errors and improving usability for 100% of users.
- Increased deployment efficiency by 60% through CI/CD pipelines with Bitbucket and AWS CodeDeploy.
- Migrated systems to modern, cost-effective technologies, saving the company \$10,000 annually.
- Secured \$100,000+ in yearly revenue from 10 new colleges and partners.

Tech: ASP.NET, C#, SQL Server, TypeScript, Vue.js, Vite, Vuetify, Vue Router, Pinia, AWS, Bootstrap, AG Grid, Razor Pages.

PROJECTS

Startup | iOS and Android Launch Planned for Q3 2025

April 2024 - Present

Founder, Full-Stack Software Engineer

- Engineered a full-stack mobile application, implementing an accessible UI, robust user authentication, secure RESTful APIs, and real-time data processing, ensuring a seamless user experience.
- Integrated Stripe to support 10+ payment methods (Apple Pay, Google Pay), ensuring seamless transactions.
- Configured AWS cloud infrastructure (EB, RDS, S3, CloudFront) for scalable, low-latency deployment.
- Eliminated 100% of address validation errors by leveraging Google Cloud Platform for geospatial data validation.
- Designed modular, reusable components using React Native, reducing future development time by 30%.
- Led the full software development lifecycle, mentoring a software engineer intern, accelerating feature delivery, and ensuring code quality through automated testing and CI/CD pipelines.

Tech: Node.js, TypeScript, Expo, React Native, React, Paper UI, Zustand, PostgreSQL, JWT, AWS, GCP, Stripe SDK.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, C#, Python, HTML, CSS, C

Databases: PostgreSQL, SQL Server, MySQL, AWS RDS, DynamoDB, MongoDB, KQL

Frameworks & Libraries: React, React Native, Node.js, Vue.js, Bootstrap, ASP.NET, Express.js, Flask, Pytorch, TensorFlow

Tools & Platforms: Git, Jira, Linux, Bash, PowerShell, Azure DevOps, Docker, AWS, Azure, Google Cloud Platforms, Stripe

Certifications: AWS Certified Cloud Practitioner, Udemy: Vue, React, React Native, CodeCademy: TypeScript

Bootcamp: Azure Engineering Bootcamp - Fundamentals, Software Engineer, Software Engineering Essentials

EDUCATION

University of Washington

Bachelor of Science in Computer Science

Seattle, WA

December 2021
