TECHNICAL SKILLS

- Software: TypeScript/JavaScript, React, Node, Python, SQL, AWS, Docker, Git, Linux, AutoCAD, AutoLISP, VBA

WORK EXPERIENCE

Featherless AI | Developer Relations

1/26 - present

- Sponsored hackathons globally to drive API adoption for an open-source LLM inference platform
- Managed the full sponsorship lifecycle across 100+ partnerships: sourcing, negotiating deal terms, closing, and post-event follow-up
- Served as a technical point of contact for developers and startups integrating the Featherless API

Headstart AI | Engineer

4/25 - 11/25

- Built a CLI-based AI coding agent in Python that handled git workflows and autonomous task executions
- Worked with consumer and enterprise customers to troubleshoot bugs and gather feedback on agentic coding
- Set up authentication, database infrastructure, and API integrations with Anthropic and OpenAI

Wikimedia Foundation | Invited Speaker

4/25

- Invited to speak after WikiTok reached 1M+ people
- Consulted on strategies for Wikipedia's growth and community engagement
- Gained international media coverage for creating a viral algorithm-free knowledge discovery website

Fractal Tech | Software Engineer

10/24-12/24

- **citymeetings.nyc | Contractor** - Used AI to help transcribe, summarize, and analyze NYC Council meetings, analyzing both meeting content and public sentiment to improve government accessibility and transparency
- **mcbench.ai | Team Member** - Created an open-source platform for evaluating AI models' Minecraft building generation capabilities through competitive ranking and human feedback, advancing research in AI benchmarks

Partner Engineering & Science, Inc. | Design Engineer

11/22-3/24

- Managed AutoCAD revisions for numerous projects, including the one of largest residential home development plan in New Jersey (549 units in Jackson, New Jersey)
- Projects included: zoning, layout, grading, drainage/utilities, stormwater calculations, soil erosion/sediment control, landscape/lighting and detail drawings

DESIGN EXPERIENCE

WikiTok

2/25

- Wikipedia with TikTok scrolling. Built in 2 hours, went viral and reached well over a million people
- Over 1000 stars on GitHub

Stevens Institute of Technology | Project Team Member

5/22

- Secured and managed \$250,000 in grants to revitalize a historically significant fountain
- Conducted site surveys, ran flow test simulations, and created scale models in collaboration with the Lake Hopatcong Historical Museum and Morris County Government

EDUCATION

Stevens Institute of Technology

5/22

Bachelor of Engineering in Civil Engineering

Honors: Edwin A. Stevens Scholarship, Passed Fundamentals of Engineering (FE) Exam
