ACHIEVEMENTS

🌟 Reduced server downtime by 30% through proactive monitoring and maintenance.

🌟 Implemented a new backup solution that improved data recovery time by 50%.

PROFESSIONAL SUMMARY

Accomplished Windows System Administrator with 7 years of extensive experience in managing, configuring, and securing Windows Server environments. Expertise in performance optimization, system automation, and troubleshooting complex issues. Committed to driving operational efficiency and enhancing IT infrastructure through innovative solutions and strategic collaboration.

WORK EXPERIENCE

Windows System Administrator - Analyst

📅 Apr / 2021-Ongoing

Seaside Innovations

📍 Santa Monica, CA

1. Developed and enforced System Administration policies, ensuring optimal server hardware maintenance and repair.
2. Managed and coordinated backup strategies for server infrastructure across multiple locations.
3. Collaborated with technical teams to implement Change Controls, enhancing operational efficiency.
4. Developed and maintained system monitoring and alerting systems.
5. Led the migration of servers and user data from legacy systems to Active Directory across various locations.
6. Monitored server health and performance using advanced performance monitoring tools.
7. Diagnosed and resolved system crashes using DebugDiag and other diagnostic tools.

Windows System Administrator/Analyst

📅 Apr / 2018-Apr / 2021

Summit Peak Industries

📍 Denver, CO

1. Guided application owners through the transition process into the new environment, ensuring compliance with STIG guidelines.
2. Provisioned new application and database servers to support emerging application needs.
3. Administered the Issuetrak ticketing system, modifying MS SQL 2008 databases for enhanced functionality.
4. Utilized MS Visio to create detailed datacenter representations, including server rack layouts and networking diagrams.
5. Generated and presented SQL reports to senior management, detailing system status and operational efficiency.
6. Managed logistical operations, including supply ordering and maintenance of emergency equipment.

EDUCATION

Bachelor of Science in Information Technology

📅 Apr / 2015 - Apr / 2018

University of Technology

📍 Denver, CO

Focused on systems administration, network security, and database management.
