EDUCATION

Bachelor of Business Administration: Management Information Systems

GPA: 4.0

Temple University, Philadelphia, PA

Awards: Provost's Tuition Scholarship: 2024 - 2028, Dean's List: 2024, MIS Professional and Academic Achievement Reward: 2025-2026

EXPERIENCE

Renaissance Contractors LLC, PA

May 2020 – Present

Financial Analyst & Client Relations

- Built an automated Excel system for labor tracking with dynamic rate calculations, historical comparisons, and cross-month summaries; integrated pivot tables, slicer-driven dashboards, and error-proof logic to reduce payroll processing time by 75% and save 15+ hours/week in manual reconciliation.
 - Managed project expenses for multiple renovation projects, overseeing labor, material, and permit costs using Excel, assisting with streamlining budgeting and cost control for projects valued at \$50K+.
 - Communicated regularly with clients, ensuring they were informed of deadlines and project progress, resulting in a 98% client satisfaction rate and on-time completion for 97% of projects.
 - Developed and optimized a responsive WordPress site for a construction firm, hosted on Cloudways with performance tuning, resulting in a 15% increase in lead generation.
- Designed and deployed automated workflows across Zoho CRM and Zoho Sign to streamline client onboarding and contract execution, cutting manual data entry by 70% and reducing errors by 90%.

Temple University, Philadelphia, PA

January 2025 – Present

Information Technology Consultant | Services

- Diagnosed and troubleshoot client's software, networking, and hardware issues on Windows (OS) and Mac (OS) devices, lowering downtime by 5%.
- Resolved client issues such as password resets, access issues, MFA logins, and general IT inquiries resulting in a 98% ticket completion rate.

Certifications

Verizon Cloud Platform Job Simulation

Dec 2024

Verizon Cloud Platform Engineer

- Completed a job simulation involving building a hypothetical new VPN product for Verizon's Cloud Computing team.
- Used command line Python to test whether Verizon's VPN met the cloud-native traits, i.e. redundancy, resiliency, and least privilege.
- Researched approaches to achieve application security and communicated insights in a PowerPoint Presentation.

SKILLS
